Ezra Cornell Esq. President N.Y.S.
Agricultural Society

Dear Sir, I have to thank you, and the Executive Committee of the Society of which you are the President, for the invitation you have conveyed to me, to deliver the Annual Address before the Society, at its Fair this fall, at Rochester.

I beg to say, that I consider this invitation a very distinguished compliment; and the terms in which you are good enough to convey it, make it its value all the greater. The delay I have allowed to occur in replying to your letter, you will, I hope, excuse, when I say that, after declining during a number of years, nearly all invitations to make Public Addresses,

I felt so strongly inclined to accept this one — that I now write at the earliest moment in which I could venture to undertake the service desired of me.

In accepting this invitation, allow me to say in reply to an allusion in your letter to the subject of compensation; that the mere necessary expenses of my journey to Rochester and back — is the utmost I can consent to recieve.

Very respectfully
your obliged & obt sat
R. W. J. Breckinridge

Glenwill July 10/62

Mr E Cornell.

Dear Sir

In country Gentleman you have an advertisement offering Short Horn's Bull calvs. got by Duke of Oxford and Duke of Airdrie for sale. I write inquiring if you have now a calf about two months old. one that would be worthy the name of his sire. if you have one that you would sell at a reasonable price. Please write me. as you state liberal terms. if you have one please give a discription of him as to color age & pedigree (a white one dont want) if you have one write what you will box and deliver him at the Express office for.

yours P. J Vandervar

Liverpool July 16. 1862 = 6 P.M

After writing for the Steamer this morning, I went out and dined with Mr Harvey the second time, found him alone and had a good opertinety to talk with him =

I have got the refusal of Kirklivington 10th and 11th by Delhi (15.865) from Dams Kirklivington 7 & 8 - and the bull Second Earl of Walton by 4th Duke of Oxford at 300 guineas for the three - I hold this refusal untill I can see Capt Gunter and find if I can get a pure Duchess Bull of him - If I cannot, I probably cannot come nearer to it in England than to take the Second Earl of Walton =

The Heifer I bought yesterday Fidget 5th is sired by the same bull as the above, and all three are good prise heifers = Fidget 5 is in Calf - bulled Jan 29 - by Duke of Wetherly 17.753 one of Capt Gunters Duchess Bull, said to be full Duchess = With this I shall send Athertons catalogue with prices sold for yesterday marked

I have just met Freeman who says he sails for home saturday, and will carry this Package to you - Please write by every mail and inform me what is going on at home -

Yours Respectfully

E. Correll

Mrs E. Bonnett

Madam,

Nothing would satisfy Mr Sherwood but my writing a few lines, to enclose with a note from him, (the mist is very bad indeed) something in relation to our experience in passing through the Isle of Wight, in the first place we had a very pleasant journey from London to the Island, and had planned to go to a very pleasant & reasonable Hotel (whose card is enclosed) there is attached a livery from which a conveyance, and a good one with civil drivers can be got to see the sights, some of which are really worth the journey, Ventnor for instance, the most romantically beautiful place I ever saw, but the whole journey from Ryde to Newport is of that character nearly, since if the scenes are, of course, more wild & grand than beautiful, we consider our time well spent, and should have been glad to have spent even more if we could have spared it, the only unpleasant thing about the journey is the disposition to extortionate on the part of some of the different Hotel keepers, some of course worse than others; Mr Sherwood will give you a list of the good or best & the bad

as he has kept the roll, and I have paid the bills.

We agree not to read each others note to you, and I am glad he does not, as I am almost ashamed of such a letter, as well as that I am taking a great liberty in writing at all.

Hoping this will find you in improved health

I remain with great Respect

Yours &c

My much esteemed friends. Mr & Mrs Cornell

Having finished our visit to the Isle of Wight. Mr Dagwell & myself have agreed to each drop you a line, and have further agreed, that neither shall see what the other writes, so all the love expressed by either we will each be ignorant of, and you can keep it to yourself. But leaving jesting for the present I wish simply to state, that we have been very much pleased with our visit to the Isle of wight, and having been through the Island we would make a few suggestions. It is a very expensive place to begin with. There are a large number of Hotels at Ryde. some of them are exorbitant in prices. You will find clean comfortable quarters at reasonable prices at The Royal Kent which is on the right hand of the Strut immediately back of the Pier Hotel. and but a few steps up the Hill. There are two ways of doing the Island, One by taking the Coach Route and the other by Private Conveyance. We took the latter. You will need to take at least 3 days to see the principle places of interest Ventnor exceeds them all. You must not fail of giving it a large share of attention the upper part, which you see as you first enter the town. Get out of the Carriage at the first Church on your right. Then go down to

S. P. Sherwood
16. July 62

little old Ventnor Church just below on your left. then notice the little Pond on your right where Rulpit Rock is located on the oposite Bank Notice particularly the Fusca Trees. that stand there year in and year out. I say Trees for they are truly trees. go up the Clinic by all means. And bathe in the Sea and pick up moss & shells. and Diamonds & precious Stones until you mak ninies of yourselves, as we did, and let your husband buy you what you want as Mementoes. or buy them yourself. we were quite pleased with the clean quiet Hotel at Sandrock. but there is not much to be seen there unless you get a permit to see Mr Mortimers place. which we went through and felt well paid for it. Blackgang is a place of much interest, if you could stand the fatigue of going down the Clinic to the Sea Shore. but it requires a good amount of strength to do it. but by taking your time it can be Easily accomplished. Carisbrook with its old Castle & well is well worth seeing. I Know you will be well pleased with a visit to the Isle of Wight. and Dont fail to make it. we leave this Evening 5 30 for Paris. where we shall hope to see you all with Kindest regards to you & Mr C & Col J & wife I remain

Yours truly &c

My Dear Sir

We are much rejoiced to hear of your recovery, and that all our friends are well - We remain much as when you left - Mr Osborn is somewhat unwell this morning, but nothing special - Mrs Johnson is quite comfortable, & has decided to return to London, where it is hoped a cooler atmosphere either in town or at Isle of Wight may invigorate her. - We propose to leave here with Mr & Mrs Osborn on Saturday - and if all is well at London I intend to go to York & Limerick if I can.

Went out to Grignon the day you left and attended the trial of the reapers, and examined as far as we could the school & the farm and shop arrangements which are excellent — I intend to visit to morrow the grain testing farm of the late Mr Vilmorin, and hope to derive some profit from the visit —

We much regret that we cannot see Geneva, the Lakes and the Mountains — but the Lord's will be done

I had letters from home yesterday, not a word about Machine — A letter from Mr Conyer discours of Sicurity Gomez Stock which I may see at York.

Kind regards to Mrs Cornell and all our good friends whom we hope to meet Son — Mrs Johnson writes in kind regards & Madame Ames & Mr & Mrs Osborn ask a remembrance Yrs truly B.P.J.

Sir,

In reply to your favor of yesterday we shall be happy to ship the stock you name. There are three or four ships sailing every week for N. York, but it is only here & there one that will take Sheep or Cattle. Let us know how many you wish to ship & about when they will be ready. We will then make the requisite enquiries & write you again. They must be here a day or two before ship sails during which time we can get them properly cared for, but on no account to be sent down till we order them. The freight will have to be paid here as well as Fodder for the voyage Stabling on board &c:

16 August 1862.

Dear Sir.

In reply to your obliging letter of the 14th Inst.- respecting your sheep and the best mode of getting them to Liverpool.

I would suggest that if your other stock should leave London for Liverpool, that you have the Rams, and ewes sent to London, so that the animals all leave there for Liverpool direct & at the

same time the cost will be about the same, as if sent from here to Peterborough and from thence to Liverpool. But I will forward them whichever way you please to direct. If the animals go to London they will then have no changing of Railways but will go through at once without any delay, which they might have if sent by way of Peterborough.

You will oblige me by sending the Numbers of each lot of sheep from the Auctioneers list, in order that there may be no mistake in delivering them.

Respecting the charge for the keeping the animals since the Sale I beg to inform you that will be nothing, you are quite welcome to the little accomodation that may have been to you. I could recommend

you to apply to Mr. Bell
at the Adelphi Hotel
at Liverpool to provide
for as many head of stock
as you intend sending out, letting
him know the kind, and
also to look out for what
accomodation you may wish
to provide for on board any
vessel you may wish them to
leave by. Mr. Bell has
often sent out stock for me
and you are quite at liberty
to make use of my name to

C. Cavell Esq.

 him, and I think he will do fairly by you.

I had hoped to have sent out one Ram at the same time with yours, I wrote a letter to Mr Taylor of Holmdel since my sale respecting it but have received no answer at present. Should I get his answer in time I should like to send his Ram out with yours, as it would lessen the cost per head

on cash, ~~or bill~~ by Rail
to Liverpool. Should I
get an answer from Mr.
Taylor in time, and you
do not object, I will send
his Sheep with yours,
and in such a case I
will write to Mr Bell
respecting his voyage as
formerly. Should you intend
leaving England By the same
Vessel there will be no fear
of the animals being well
cared for.

I shall hope to have
the pleasure of seeing yourself,
and friends, at Babraham
to spend a day and look
over my Short-horns
before you leave this country

My Dear Children

Your Father has just left for Yorkshire with a request that I would write a few lines to send by the Steamer that leaves tomorrow leting you know by what Steamer we intend to return home, as he had not time, We have engaged our passage by the Arabia which is to sail from Liverpool for Boston the 6th of Sept. Col & Mrs Johnson Mr & Mrs Osborn of Auburn Mr & Mrs Fremain of Fayetteville & Mr Dagwell of Utica will accompany us home, I was very anxious to leave sooner for home but your Father could not arrange matters to get away before, I hope nothing will happen to prevent

our coming at that time as I
fear the equinoxial gale would
disturb our equilibrium as much
as the gale did on our passage
over, I feel very anxious to get
home as I think our poor suffering
Country needs our aid, We can all
do something to assist in this time
of trial. I have felt at times as though
we must not stay away any longer,
It is with thankful hearts that we
receive the welcome intelligence of
your, and all our friends continued
good health.

We are very well, shall
probably leave here for Scotland
and Ireland the first of the week
and get around to Liverpool a
day or two before the vessel sails.
I have no time to write more as
I have an engagement to go out, and
want to mail this in time for the Steamer

My dear Sir.

I regret exceedingly that I was out when you called at Westerly, had I known you had been coming over I should have made a point to have been at home to meet you — Fortunately my agent Mr Knowles

is at present in town looking after my estates there, & I have written to him by this post to call upon you, & he will give you all & every information connected with my herd & the various animals — I have "never" yet sold a female Duchess to anyone, & only one bull to America & one to the French emperor, but I would not mind now doing so, on the guarantee that neither of them were "ever" resold back to England. I have only now two bulls at home, Grand Duke of Wetherby, & Duke of Clarence either of which at present I could part with, tho' I expect one

of them will be let immediately.
I should want for three animals
together about £. 2000. but
Mr. Knowles will call & give
all & full particulars, more
so than I can do on paper.
Regretting I had not the
pleasure of meeting you
I am, dr Sir

Dear Alonzo

I reached this city of manufacturing industry last evening from Capt Gunters at Wetherby - I saw the Capt yesterday P.M. and found him to be a young man the counterpart of Sammy Thorn -

He gave me the price of a bull calf dropped June 28 by Duchess 73 - Sired by 7th Duke of York, handsome roan - and a heifer calf some younger from Duchess 80 - Sired by 7th D of Yk - also a handsome roan he to keep them until next may - at £1,500 - or $7,500

Or he will sell me a Duchess bull one of two white ones

I pay insurance on $4,000. for Ocean risk - I risk the loss by accident in America and he risk loss by sickness or disease. and charge me $1000, per year =

He also showed me two fine white yearling heifers 3/4 duchess the two last crosses at $1,000 each = He is refusing to sell any bulls or females here. If I buy it is with restriction not to let the female return to England = He lets his bulls however and has three or four out now at $750, per year each -

I saw Duchesses as follows Nos 69-70-72-73-77-78-79-80. 82. 83-84-85-87- he has three more that I did not see -

77 + 83 are the choice animals of the lot = They represent them all as better milkers than any other vase of cows - and they milk pretty well or there is some tall lieing done. I have left the Capt without deciding what it is best to do - and go to Sondow to day. I supposed your mother wrote you by last mail that we had engaged passage on the Steamer (Cunard line) that sails Sept 6 - for Boston = I forget the steamers name but I think it is the Arabia =

I have this moment with my brakefast had the following American news 10 days from New York - see slip from the Leeds Mercury - of 23d.

It is a fortnight since I have written a letter for Journal, I round began, left one nearly finished for last steamer when the Cab called to take me to the station for this trip.

I visited A. L Maynards herd yesterday and saw some fine animals, but nothing like the Duchess, Maynard is 70 years old and has known the Ds from calling on and he says there is nothing like the Duchess in existance

I got a letter from

he has never received my
letter which I wrote for him
on my return from Battersea
as he is not aware what was
bought for him at my sale, but
he says "if any ewes were bought

My Dear Sir.

I had my letters to meet me on the road to this place this morning, and amongst others I found yours and am anxious to lose no time in replying to it, in order that your mind may be at rest upon the subject.

In the first place I will state that I have not

had the slightest disease
amongst any of my sheep
of any kind whatever, neither
have I ever heard of the disease
of small pox amongst my
stock in England, except
the Wiltshire case which
must be about 140 miles
from Barham, therefore
you may rest quite assured
on that score, and I think
I can explain what is the
the matter with the ram
you name in your letter.
he had something of a small
rush on the top of one of
his shoulders before the sale
about a month. it had just
pushed up the wool a little
at the time. as my shepherd
told me (having myself been
confined to my bed through
gout at the time, I had not
been able to get amongst my
animals to notice them) this

ram was afterwards struck
by the flies on the shoulders
but was never ill from it,
nor was he ever removed from
the other Rams until sent off
to Liverpool. the venom
from the fly maggots may
have caused some scurf to
upper on the shoulders where the
wool came off, but nothing more
when the sheep left me, and I
doubt not when you see the animal
you will find him as I have described.

My Dear Sir

My clerk duly narrated to me the nature of the disappointment to which you had been subjected at the Bank of Liverpool. & this A. M. brings me your favor of yesterday detailing the annoying nature of the position in which you had been placed. If I could have managed to have conveyed a note to you before you had sailed this A. M. it would have given me much pleasure promptly to have assured you how much I felt for, & sympathised with, you in the dilemma, I could so fully participate in your feelings. You must console yourself with the reflection

that it might have been much worse — only fancy having got into bowl & having had to write to me to bail you out !!! or I am other dreadful visitation of that nature !!! Well, I got Padget to here on Monday; we think her about one quarter less than at the sale. I dont know how she had been kept, but I considered her in a most undesirable state for a Car which ought to be a Couple of months only from Calvinge. You may form an idea of the state of her body when I tell you that her dung precisely resembled that of a donkey — small evacuations of that hard nature, which even a weeks grass has not overcome — Nevertheless she is hearty & doing well. On reference to the list furnished at the time of sale I find that she was served 29 Jan 7. Consequently her 40 weeks will be up 6 Nov. — at this stage the Calf. certainly ought to be

feelable, but my man cannot succeed in
trusting it, & as to her appearance I regret
to say that it is anything but that of a
Cow so forward in Calf. At some time
she may alter rapidly & deceive us — one
thing is pretty certain, if she is not in
Calf she will soon shew in season — & if
this should unfortunately be the case I shall
serve her with a Duke of Oxford, but I
had hoped for the pleasure of another interview
ere you departed & should then have made
this enquiry from you, as also what your
wishes were after she had Calved with
regard to her being again served — on this
point be kind enough to instruct me —
Mr. Bell wishes me to ask the question,
"Would you be disposed to part with her Calf
if a Heifer & at what figure?"
Another subject I also wished to converse with
you upon — I shall never die perfectly happy unless
I possess a Duchess or two — a bull may be managed in

C. M. Harvey
Sept 6. 1882

this Country from your side - do you think you Cd get the offer of a female from Wd. Thane? he might sell one for reputation to this Country as he does bulls - for instance, 3 Duchess of Thorndale, or one younger - If I could succeed in this I would breed you a bull - If he should be inexorable on this point, he might part with one Oxford - This will provide you a little food for reflection. Be kind enough to Cord it. I wonder if it be his intention to send over any more bulls in the Spring - Can you ascertain that for me?

Sep 8 - I yesterday had a visit from your New Man John Watts & was much pleased with him. We made a further examination of Fidget & have ascertained that she certainly is in Calf - the doubt is now confined to the time of being served - whether Jan 29 is correct.

Watts was quite enamoured of 2 Earl of Walton & was very lavish of his praise - & I think was surprised at seeing so many other fine ones -

With kind regards & wishes, believe me

We are just fairly started at track laying - our first Locomotive we put on the track yesterday and shall commence using it for transporting materials for laying down the track with it this week -

Refering to the arrangement made for line of Telegraph last spring, I have to inform you that I have made contracts for Poles for thirty-five miles, about half at seventy-five cents and the balance at sixty-five all to be delivered on the dock here in Oct.

I am advised by Mr. Everts of Binghamton, that he has shipped 380 Poles, of about 600 he is to deliver, and they will arrive this week, When they are landed I shall draw on you, as you directed

Warlaby
Northallerton
Sept. 30th 1882.

My dear Sir,

I beg to thank you very much for your kindness in forwarding me your Volume & Catalogues.
At the present time I cannot put any price on any of my animals - but in the event of my having any

to tell when you come to Warlaby I shall be glad to treat with you.

Again thanking you, & hoping to see you here at your convenience,

I am, my dear Sir,

Yours truly

Richd Booth.
