Supremely convenient piping-hot water

Made in Germany

Forget about putting a kettle on the stove. Our all-new UltraHot® Instant Hot Water Dispenser delivers near-boiling hot water, conveniently and easily at your sink at the touch of a tap.

UltraHot® is easily installed. The flat back and tall tank of the UltraHot® were designed to maximize space for other uses under the sink. No tools are required for the water connections. UltraHot® was engineered to be compatible with InSinkErator® instant hot water dispenser tanks and taps.

UltraHot® is the most sophisticated instant hot water dispenser available. Patented technology automatically determines altitude and sets the UltraHot® to deliver near-boiling hot water at the maximum for that elevation. Forget about having to set it yourself. If you need hot water at a lower temperature, the digital control makes it easy. UltraHot® digital interface controls save energy and make life easier, including setback to save energy when use is not expected, like overnight; plus memory and timer settings for when use is expected; and more.

- Instant piping hot water available on demand without waiting
- Convenient use for hot beverages, cooking, cleaning
- Engineered to be compatible with InSinkErator® instant hot water dispenser tanks and faucets
- Stiebel Eltron taps available as a separate item
- Easy space-saving under-sink installation
- Plugs into a standard 120-volt outlet
- Patented system automatically senses and sets highest possible boiling temperature for any altitude
- Temperature setting not required but can be easily adjusted as low as 149°F if desired
- Holds 2¾ quarts of near-boiling water

Two sizes available

UltraHot® Instant Hot Water Dispenser is available in two sizes: the UltraHot Plus®, intended for residential use only; and the UltraHot Premium®, intended for residential use and also light commercial use such as offices, break rooms, lunch rooms, public facilities, houses of worship, etc.

- UltraHot Plus® is 750 W and draws just 6.25 amp. It dispenses 34 cups/hr of 203°F hot water
- UltraHot Premium® is 1440 W and draws only 12 amp. It dispenses 66 cups/hr of 203°F hot water

STIEBEL ELTRON

No waiting for the pot to boil

Why wait for piping hot water? UltraHot Plus® or UltraHot Premium® delivers near-boiling hot water instantaneously on demand. Imagine all the uses:

- Fast preparation for hot drinks
- Piping hot water for pasta, rice, and instant soups
- Preparing vegetables
- Baby food and bottle warming
- Cleaning greasy pots and pans
- Cleaning chopping boards and knives

Superbly engineered

UltraHot® is engineered and designed to be reliable and energy efficient in addition to performing its task superbly. UltraHot® is manufactured with ultra-high-quality 316L stainless steel, engineered for reliability and energy efficiency, plus for superb performance. UltraHot® is designed to last 2 to 3 times longer than instant hot water dispensers from competitors.

- Patented system automatically senses and sets highest possible boiling temperature for any altitude
- Tool-free water connection compatible with InSinkErator® for easy do-it-yourself installation
- Temperature setting not required but can be easily adjusted as low as 149°F if desired
- Sophisticated illuminated digital display accesses temperature settings, timer settings including night modes, and more
- Extremely well insulated tank reduces stand-by heat losses for lowest power consumption
- Heating element and tank are corrosion-resistant high-quality stainless steel
- Designed and manufactured to be long-lived, hygienic, without odors and off-taste
- Safety features include frost protection and dry-fire detection
- ETL certified to UL safety standards

Stiebel Eltron faucets

Two styles of Stiebel Eltron faucets are available. A **Mono-Tap**, which dispenses near-boiling water from the UltraHot®, or a **3-in-1 Tap** which dispenses near-boiling water plus hot and cold water. Stiebel Eltron taps are available in chrome or brushed nickel finish. UltraHot® tanks are compatible with InSinkErator® non-pressurized instant hot water dispenser taps. **InSinkErator® tanks cannot be used with Stiebel Eltron faucets.**

Mono-Tap (Shown: brushed nickel)

3-in-1 Tap (Shown: chrome)
