Week 4

AG CLASS

Students will be working on the Wildlife CDE; learning wildlife identification. Students will use the wildlife Power Point from the New Mexico State FFA judging web site. They will learn to identify by sight and characteristics approximately 20 animals per week.

Procedures:

The link provided below takes you to Nmffa.org career developments events. Begin by clicking or entering the following link:

http://www.nmffa.org/cdes.html

Scroll down until you see the Wildlife section and click on the bullet point called "Wildlife Identification". This will open up the PowerPoint with the wildlife slides. Under the "Slide Show" menu item at the top bar, choose "From Beginning". (You can save this slide show to your own device if you want by using the "Save As" function).

Each slide has a picture and listed characteristics of the wildlife presented. There are 184 animals provided in the slide show. Starting with Week 1, you are to learn numbers 1-20 presented in the slide show. That is, identify them by name, sight and characteristics. Each week you will learn 20 more specimens, in order, from the slide show.

To start the semester, the following schedule for learning the slides will be:

Week1- Slides 1-20

Week2- Slides 21-40

Week3- Slides 41-60

Week4- Slides 61-80

Assessment:

Each week you will be given a Quiz over the wildlife slides learned that week. The Quiz will be provided to each student electronically or manually on Mondays and must be completed and sent back by Thursday of that week.

If there are any questions regarding the assignment or other items, please contact me at:
