Rave Cosmology Biversity

Rave Cosmology is the esoteric and mystical side of Human Design.

For the first 18 years after the birth of Human Design, Ra Uru Hu focused on what was logical and empirical about Human Design. He often said: “Don’t believe me and do not trust me. Try it for yourself; test it for yourself. This is mechanical knowledge that can be tested by each and everyone of us”.

Ra said, “Nothing has concerned me more than the legitimacy of this knowledge. It is why it is so important for me to explore the depths of design and personality to get to the very core and foundation of the knowledge. This is a true science, and it is a miracle science.”

Come join us in the Rave Cosmology Biversity and learn about how the Human Design knowledge ties together with the creation of our Biverse and the mechanics behind existence.

Time of Lessons:	16:00 GMT	Early Bird Price:	$800.00

For the first 18 years after the birth of Human Design, Ra Uru Hu focused on what was logical and empirical about Human Design. He often said: "Don't believe me and do not trust me. Try it for yourself; test it for yourself. This is mechanical knowledge that can be tested by each and everyone of us".

Once Human Design was established as a practical yet transformational tool, Ra Uru Hu felt a responsibility to bring forward the mystical side of Human Design by sharing his experience directly with us. He empowered us to carry this information forward to share it with the rest of the world generation by generation. Teaching the Rave Cosmology of Human Design is the opportunity to bring balance to this knowledge and to show how vast and profound the source of this knowledge really is. As Ra said, "It is time to give the Voice its due and allow this mechanical, simple view of the cosmology to be accessible and to be available."

General, Experiential and Continuing Education

Staffed by an eclectic and talented group of IHDS professionals, we offer a cross section of workshops, lectures and courses adding a new and exciting dimension to the IHDS. Whereas the IHDS Training Academy and the Science of Differentiation College focus on extended and detailed certification programs, the General Education opens the door to Human Design by creating an experiential dimension to the IHDS, and also a place to possibly ‘catch up and catch on,” or simply pursue a specific interest.

Day of week:	Sundays	Regular Price:	$475.00
Time of Lessons:	16:00 GMT	Early Bird Price:	$425.00

A course for those carrying the channel of community 37/40

We are here. It's 2027, and the future is not what it used to be – certainly not for those who carry the Channel of Community, which is the departing (and cozily familiar) frequency of the Cross of Planning.

But let's talk about what's potentially exciting: we are a generation of Human Design practitioners who are embodying the 'old' transforming with the new – able to observe an extraordinary evolutionary movement from up close and personal.

Drawing from various sources in Rave Cosmology and Differentiation, this six-part experiential course will focus on framing the transitions in the global landscape through the selfish 6th line frequency and the changing keys – juxtaposed with the channel of community.

The Science of Differentiation College

Human Design is the Science of Differentiation and the IHDS College offers complex and inspiring programs.

As empowering as Human Design is for the Personality Passenger, **Primary Health System** is the awakening key for the Design Vehicle, a revolutionary way of addressing the health of the body and brain function. **Rave Psychology** is the study of the underlying motivations of the Personality and leads to the study of the mapping of the mind.

This new school year we open the doors for new students to begin this journey with the Differentiation Degree Certification Program.

Whether you are a professional, newcomer or somewhere in between, the College now offers programs for students of all levels to begin an exploration into PHS and Rave Psychology.
