Cleaner

Lime Solvent

Phosphoric Acid Cleaner

Features

Mild Acid Cleaner
Lime Solvent is a 20% Phosphoric Acid Cleaner which will cut through hard water scale, lime, rust, or soap scum deposits with ease without damaging surfaces or chrome fixtures. Use on ceramic tile, dishwashing machines, ice machines, coffee urns, milk coolers, water fountains, toilets, urinals, bathtubs or any other surfaces not harmed by mild acids.

Deliming Dishwashing Machines
Fill tank to 3 inches below overflow level. Turn on tank heaters. Add 1 gallon of this product. Run machine until scale is reached. Use full strength on areas not reached. Scrape excess deposits. Drain and refill with potable water. Run 5 minutes and drain. Use as necessary to prevent build-up.

Automatic Ice Machines
Open door to access evaporator compartment, remove all ice. Run machine through the clean/wash cycle. When indicated, add the Lime Solvent undiluted to the machine in the amount specified by the manufacturer. Complete the cleaning cycle, shut off power, and remove and soak any parts that need to be delimed using a solution of 1 oz/gallon Lime Solvent. Rinse all surfaces with potable water, then sanitize per manufacturers instructions.

Properties

Appearance	Low viscosity, Llight green liquid
pH	< 1.0
Specific Gravity	1.08
Flashpoint	None
Use Dilution	Heavy Duty -Use Straight Normal - Dilute 2:1 with water. Light Duty: Use 1oz./gal. (8 ml/l)
Foamability	Low
Hardwater Tolerance	Yes
Detergency	Excellent
Storage Stability	Excellent, 1 yr under normal conditions
Freeze-Thaw Stability	Will freeze - usable after thawing with no change in performance. Agitate after thawing.

Item No. 005904

Directions

Cleaning Ceramic Tile Floors, Walls
Use 1 ounce of this product per gallon (8 ml/liter) of hot water. Apply solution with mop or brush. Let stand for 5 minutes. Rinse thoroughly with clear water.
Descaling Coffee Urns
Fill urn with hot water. Add 1 ounce of this product per gallon of water. Heat and let stand for 15 minutes. Drain and rinse thoroughly with potable water.

Quick Guide

Dilution
Dilute at 1 oz. per gallon of water for common cleaning tasks, heavier as needed.

Uses
Use for removing mineral deposits and lime buildup.

Surfaces
Ceramic, porcelain, stainless steel, acrylic, chrome, aluminum, plastic.

Equipment
Brush, sponge.

Restrictions
Do not use on marble, terrazzo, or other acid sensitive surfaces.
