BEAUTILITY.

A coupe used to be a selfish choice; room for just you and one other. But the BMW 4 Series Gran Coupe follows its own path, taking the performance and good looks of a traditional two-door and adding room for four and their luggage.

THE 4-DOOR 4.

From the outside, the Gran Coupe looks the part, taking styling cues from its two-door sibling. An aggressive front end with Adaptive LED Headlights, frameless side windows and a glass hatch fully incorporated into the fastback design means only you will know about the benefits of its added utility.

SPACED OUT.

The 40/20/40 split fold-down through-load rear seats provide even more hauling versatility, so you can carry friends, cargo or a combination of both. If you have full hands, Comfort Access allows you to access the cargo area with just the wave of your foot underneath the rear bumper.
