Chrysler Sebring Sedan and Cabrio Provide Style, Comfort and Value in a Distinctive Package

Press Information

Date
March 1, 2005

- **Navigation system available for both models**
- **Sedan offers premium amenities in a contemporary package**
- **Cabrio has athletic road presence and spacious interior**

Geneva – Distinctive styling has always been a hallmark of the Chrysler brand, a tradition that is strongly evident in the eye-catching looks of the Chrysler Sebring Sedan and Cabrio. In addition to their elegant appearance, the two Chrysler Sebring models combine many practical features, premium amenities and great value in what is a highly competitive segment.

One of the many premium features is a navigation radio, available for both Chrysler Sebring Sedan and Cabrio as a factory-installed option. This RB3 navigation radio system for European customers contains a navigation computer with 12.4 cm (4.9-in.) diagonal full-colour display, tuner and CD player all in one unit. Features include turn-by-turn route guidance navigation with voice instruction, seven different user languages, automatic re-route calculation and memory to store 50 custom user destinations.

Another premium interior feature is automatic temperature control, which is standard on models with the 2.7-litre engine. An AM/FM radio with single CD player is standard on both Chrysler Sebring Sedan and Cabrio.

Three petrol engines are available for Chrysler Sebring. Both Sebring Sedan and Cabrio are available with a 2.7-litre V-6 engine mated to a four-speed automatic transmission or a 2.0-litre four-cylinder engine combined with a five-speed manual transmission. Sebring Sedan also offers the choice of a 2.4-litre four-cylinder engine with a four-speed automatic transmission. Both automatic transmissions are equipped with AutoStick®, a driver-interactive shifter that provides drivers with manual control of the automatic transmission or the convenience of fully automatic operation.

The sophisticated and stylish Chrysler Sebring Sedan continues to build on the heritage of the Chrysler brand. It is available with a choice of two trim levels: Sebring and Sebring Limited. And Chrysler maintains its cabriolet market appeal with the latest Sebring Cabrio in two versions: Touring and Limited.

Chrysler Sebring Cabrio is a true four-seater with room for the driver and all passengers to ride comfortably, while still having ample cargo capacity in the boot. Sebring Cabrio's convertible roof is designed with a full cloth headliner crafted from state-of-the-art materials, providing sound and climate insulation. The roof also features a solid glass rear window and electric rear window defroster, as well as a four-window-down system. When the button is depressed to fold back the cabrio top, all four windows go down simultaneously.

Generous Safety Equipment and Standard Features

All Chrysler Sebring Sedan and Cabrio vehicles boast an extensive array of safety features including headlamps that feature improved beam pattern and brightness, multi-stage front air bags, front seat belt pretensioners, rear seat shoulder belts, repositioned higher head restraints, internal emergency trunk release and enhanced occupant protection with additional front door beams and safety cage structure.

Also standard are a child seat anchor system (LATCH/ISOFIX) and Sentry Key® engine immobiliser that prevents the engine from being started without the proper key. Active safety features include a four-wheel disc brake system, traction control and anti-lock braking system (ABS).

Additional standard equipment includes air conditioning, remote keyless entry, power windows, speed-sensitive power door locks, dual illuminated visor vanity mirrors and a lockable console. A short/long arm (SLA) front suspension system provides superior balance between handling stability and ride comfort, while the rear multi-link suspension contributes to a refined ride with agile handling by reducing friction.

Chrysler Sebring Sedan and Cabrio are manufactured at the Sterling Heights Assembly Plant in Sterling Heights, Michigan, USA.

Engines

2.7L

Type	Petrol, six-cylinder, V-type
Capacity	2.7L (2736 cc/167.0 cu. in.)
Maximum power	149 kW (203 hp DIN) @ 5800 rpm Sedan/5900 rpm Cabrio
Maximum torque	260 N•m (192 lb.-ft.) @ 4850 rpm Sedan/4950 rpm Cabrio
Compression ratio	9.7:1
Bore and stroke	86.0 x 78.5 mm (3.38 x 3.09 in.)
Transmission	Four-speed automatic with AutoStick®

2.4L

Type	Petrol, four-cylinder, in-line
Capacity	2.4L (2429 cc/148.2 cu. in.)
Maximum power	105 kW (143 hp DIN) @ 5200 rpm
Maximum torque	210 N•m (155 lb.-ft.) @ 4000 rpm
Compression ratio	9.5:1
Bore and stroke	87.5 x 101.0 mm (3.44 x 3.98 in.)
Transmission	Four-speed automatic with AutoStick

2.0L	
Type	Petrol, four-cylinder, in-line
Capacity	2.0L (1996 cc/121.8 cu. in.)
Maximum power	104 kW (141 hp DIN) @ 5700 rpm
Maximum torque	188 N•m (139 lb.-ft.) @ 4350 rpm
Compression ratio	9.4:1
Bore and stroke	87.5 x 83.0 mm (3.44 x 3.27 in.)
Transmission	Five-speed manual

Chassis and Running Gear

Front suspension	Double-wishbone with high upper control arm and stabiliser bar
Rear suspension	Low-arm multi-link
Steering	Power-assisted rack and pinion
Brakes	Discs front and rear with ABS
Wheels and tyres	16 x 6.5 inch wheels with P205/60R16 tyres

Dimensions and Capacities
