Lumenis®
Energy to Healthcare

Lumenis - Five Decades of Innovation

Over 50,000 Systems Installed in 6 Continents

1973
First CO_2 laser
supplied to Albert Einstein Hospital (NY, USA)

1980
SuperPulse™ CO_2
the standard in modern laser applications

1993
Invented **IPL**, Intense Pulsed Light

1999
LightSheer® Technology
for laser hair removal

2005
UltraPulse® ActiveFX™
the world's first fractional CO_2

2007
UltraPulse® DeepFX™
the world's first micro-fractional CO_2

2008
LightSheer® DUET
the first system with High Speed Vacuum Assisted technology

2010
M22™
the all-in-one aesthetic system for treatment of over 30 skin conditions

2012
UltraPulse® SCAARFX™
the world's first fractional CO_2 to impact up to 4mm in depth for effective treatment of scars

2013
ResurFX™, the only true fractional non-ablative solution

2014
LightSheer® DESIRE, a compact portable, laser hair removal systems

2017
PiQo⁴™ advanced pigment superstation unmatched in versatility

2018
SPLENDOR X™ - Laser hair removal powered by BLENDX tecnology

NuEra® - Powerful deep heating RF solution for skin tightening and cellulite

2019
LightSheer QUATTRO
A head to toe laser hair removal platform

Legend Pro™ Skin treatments platform empowered by VoluDerm™ RF, ultra-thin electrodes and TriPollar® RF

2020
Stellar M22™, advanced multi-application platform

NuEra® Tight - Personalized body platform with FocalRF® technology

CELEBRATING 50 YEARS OF LUMENIS®

LIGHTSHEER

This is how confidence feels

LightSheer® QUATTRO™

The latest addition to the LightSheer family of products, LightSheer QUATTRO is a head to toe diode laser workstation. It is capable of treating all skin types with 805nm and 1060nm wavelengths. The LightSheer QUATTRO is suitable for any practice offering, fast and comfortable treatments with long lasting results.

High-Speed Vacuum Assisted Technology

- Large spot size using lower fluence with faster comfortable treatments
- No topical anesthetic required
- No prep time and no gel required
- Larger coverage for faster treatments

ChillTip Sapphire Contact Cooling Technology

- Designed to treat small areas that require maximum precision and high fluence
- Continuous contact cooling for epidermal protection and increased comfort

Upgradeable and scalable

- Portable with a compact footprint
- Suitable for any practice
- Add features and capabilities as your practice grows
- Remote connectivity for service support

State of the Art User Experience

- Advanced Graphical User Interface - Intuitive presets for fast learning curve and easy treatment delegation
- Award winning design with large display and touch screen

With more than 70 clinical studies proving the efficacy of our treatments, the LightSheer family is a gold standard in the industry

LightSheer is intended solely for use by trained physicians and may pertain some risks such as redness, swelling and pigmentation. Refer to the operator manual for a complete list of indications, contraindications and risks.

PiQo^4

You. New.

Advanced pigment superstation

The new photoacoustic solution for tattoo, pigment removal and skin rejuvenation.

Pico + Nano

The Pico and Nano combination yields better outcomes, as well as may result in fewer sessions required.

Treats all Ink and Skin Colors

PiQo^4 can be used on all Fitzpatrick skin types to clear pigment in the skin, and for the broadest range of tattoo colors.

High energy and Deep Reach

With energy output 2-3 times the competition, the PiQo^4 can utilize a 15mm spot size to penetrate deep into the tissue for the most resistant pigment.

Ultimate Pigment Superstation:

- PICO + NANO
- HIGH ENERGY
- DEEP REACH
- 4 WAVE LENGTHS

Unwanted pigmentation and lesions

- SKIN IRREGULARITIES
- GENERAL SKIN TONING AND REJUVENATION
- SUN DAMAGE
- FACIAL LINES AND WRINKLES (RHYTIDES)
- TATTOO REMOVAL
- SKIN PIGMENTATION ASSOCIATED WITH PHOTOAGING

PiQo^4 is intended solely for use by trained physicians and may pertain some risks such as edema or erythema. Refer to the operator manual for a complete list of intended use, contraindications and risks.

Legend Pro

Dare to imagine

Skin treatment platform

No pain or bleeding, minimal downtime.
From resurfacing of the upper layer of the skin to promoting regeneration of collagen and elastin in the deep dermis, Legend Pro uses a unique RF assisted ultra-thin electrodes ablation and third generation TriPollar® RF.

TriPollar®

Triggering regeneration of collagen and elastin fibers, by delivering focused RF energy in a safe and effective manner, inducing controlled heating of the deep dermis.

VoluDerm™

Activating the body's natural healing processes by applying RF assisted ultra-thin electrodes creating micro channels to induce controlled micro wounds, thus encouraging the generation of new and healthy skin.

TriFractional™

Applying contact RF pin point ablation with controlled volumetric heating to achieve skin resurfacing and regeneration via wound healing process, resulting in skin texture improvement and refinement.

SPLENDOR X

This is how confidence feels

Alexandrite & Nd:YAG laser hair removal workstation powered by BLEND X technology

Extremely powerful, SPLENDOR X™ takes treatment to new heights. High fluence, large spot size and rapid repetition rate.

BLEND X technology: Alexandrite & Nd:YAG

SPLENDOR X powered by BLEND X synchronizes the wavelengths to be binary fired with varying proportions to tailor treatment, according to the individual's skin type, hair color and thickness allowing safe and effective treatment.

Extreme power, unprecedented speed

The SPLENDOR X is very powerful. It provides rapid coverage rate combining high fluence, adjustable wavelengths, large spot size and high repetition rate.

Revolutionary square spot size

The revolutionary square spot provides faster and uniform coverage of the treatment area, with larger spots penetrating deeper. No overlap, no burns and no retouching missed areas.

Advanced ergonomic handpiece

The SPLENDOR X handpiece integrates a plume evacuator and cooled air for added comfort at the same time.

Built-in plume evacuator

An integrated plume evacuator and HEPA filter provide a smoke free environment and ensure the well being of the treatment provider and the patient.

DCS (Dual Cooling System)

Combined Cryo-Touch and Cryo-Air for maximal patient's comfort during the treatment.

NuEra Tight

Speaks your body language

Personalized body platform for cellulite, and skin smoothing

NuEra Tight sets a new level of personalization from controlling the treatment depth using FocalRF to multiple electrode to treat from head to toe with no downtime

The only body system a clinic need

- High power
- Controlled treatment depth
- Automatic temperature control - up to 45°C
- Perfect fit - any body size and type

FocalRF - Controlled treatment depth

Treating tissue at the right depth is the key to successful treatment. FocalRF technology allows physicians for the first time to control the depth of the treatment in multiple stages from superficial to deep heating. By targeting the right tissue depth, you can successfully treat any patient, in any region of the body, at any tissue thickness.

NuLogic - New treatment protocol

NuLogic technology sets a new level of personalized treatment. The NuLogic treatment protocol combines multiple treatment parameters in a single treatment session.

Physicians for the first time have more control in treating each of the tissue layers with the right parameters for each tissue composition or to treat multiple indications for a more impactful treatment session.a regular treatment touch-up program.

CELLULITE REDUCTION | SKIN SMOOTHING

AcuPulse

MultiMode™ SuperPulse™ CO_2 Laser Platform

A complete ablative resurfacing workstation your gateway to the future of aesthetic and women's health solutions.

SuperPulse™ Technology

- Exceptional ablation/coagulation ratio
- Reach the desired treatment depth with a single pulse

Short Pulse Duration

- Enhanced patient comfort
- Minimizing thermal damage

11 Built-in Treatment Modes

- Maximum versatility with only two scanners
- Full parameter control for advanced users

Intuitive User Interface

- Easy setup and quick treatments
- User presets for single-click treatment initiation

CO_2 lasers are intended solely for use by trained physicians and may pertain some risks such as change of pigmentation, infection, erythema or skin induration. Refer to the operator manual for a complete list of intended use, contraindications and risks.

UltraPulse

The Most Powerful CO_2 Laser in Aesthetic Medicine

UltraPulse® can penetrate deeper than any aesthetic CO_2 laser. Combined with great versatility, this makes UltraPulse® perfect for both everyday procedures and thick and complex lesions.

DeepFX™ | ActiveFX™ Fractional Modes

- Great versatility and precision for all your resurfacing needs
- CoolScan™ technology for enhanced patient comfort

Deepest Impact with SCAAR FX™ Mode

- Up to 4mm in a single pulse
- Ideal mode for treating deep, thick lesions

Exceptional Ablation/Coagulation Ratio

- Optimal clinical outcomes with minimal excess heating
- Proven efficacy in dozens of clinical studies and peer-reviewed publications

Shortest Pulse Duration

- Faster than the tissue relaxation time
- Minimizing thermal damage

Your journey with Lumenis has just begun.

We want your business to grow with Lumenis. That's why we have put together a support package that begins with the first conversation and will stay with you as your business begins to see the benefits. We provide a support package which ensures that you have all the training you need and receive the most up to date clinical materials.

Lumenis Practice Locator

Thousands of patients search for treatment providers every month. Help them find your clinic by registering your practice on the Lumenis Practice Locator. We run campaigns through influencers, social media and viral videos to promote this directory.

Lumenis online

Consumers have many questions about aesthetic. Our patient-facing websites will give them the re-assurance and confidence they need to move forward with the treatments.

Team Training

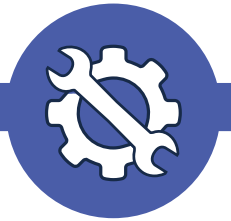
We install the system and train your staff, so that you are able to assess skin types and conditions, creating the perfect treatment plan for each individual patient.
Our expert clinical training means they will handle consultations and treatments with confidence.

Your Most Valuable Resource

Your dedicated representative is an email, text, or phone call away. We want you to feel part of the Lumenis family, so please feel free to contact us any time. We'll always do our best to get back to you within 24 hours.

Brand Your Clinic

As a Lumenis client you will have access to the Lumenis Physician Portal. Here, you can find materials such as brochures and posters. You will also have access to a wealth of clinical and product information.



Extensive Service Network

We are committed to providing high quality, comprehensive service for medical equipment repair and maintenance. Lumenis service provides you with peace of mind, so you can focus on patient care, rather than on the equipment.
