The Academy Summer Reading Log

It is our hope that students grow in their enjoyment of reading over the summer AND also continue growing in their reading ability. Remember to choose books that are AT or ABOVE your reading level using The Academy Leveled Reading List. Record the books read here and the time spent reading each week (students will earn 5 points for every week they read at least sixty minutes). For younger students, we recommend that students read out loud to an adult or older child. Older students may read quietly to themselves; however, reading out loud should also be practiced often.
