CLARKE BIGGER, BRAVER, BOLDER.

Dear Julie,

It is one thing to think about the future.

It is quite another to design it.

This is my personal invitation to join us at Clarke + 2016, an Appreciative Inquiry. Our first Clarke + held in 2012 was a true pivot for our company. This event promises to uncover even Bigger, Braver, Bolder ways to turn sustainability on end and define what the workplace of tomorrow will become.

Please join us for two and one-half thought-shifting days.

Clarke +, an Appreciative Inquiry, is back. Bigger, braver and bolder than ever.

Our first Clarke + in 2012 generated results that were humbling and enduring. That event ignited a culture shift of infectious innovation. It spawned partnerships beyond our imaginations. Now is the time to take the momentum further.
