DETAILS YOU CAN FEEL

NEX NOVA

INNOVATION AND AESTHETICS CONVERGE

NEX NOVA is purposefully engineered for adaptability, comfort, and effortless integration.

Created through a close collaboration between Lacasse's designers and engineers, NEX NOVA embodies a shared commitment to thoughtful design and technical excellence.

Dominic Aubry
Vice-President Product Design and Innovation

The curved lines on the shelf, the work surface and the leg introduce a softer and more contemporary design.

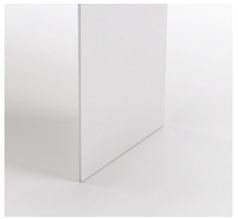
FIXED LEGS

Monument



Metal
(Black, Satin Chrome & White)

Laminate

HEIGHT-ADJUSTABLE BASES

Telescopic monument base

Telescopic base for waterfall desk

Platform base for classic desk

(Metal accents available in Black or White)

PULLS

Profiled
(Black, Silver or White)

Linear straight
(Black, Anodized or White)

Linear double curve
(Black, Anodized or White)

Linear curve (left or right)
(Black, Anodized or White)

FUZE™

Edgebanding Technology

All Lacasse laminate furniture features this technology, which uses a laser beam to fuse the edgeband directly to the laminate panel for a seamless finish. This process eliminates visible seams, helps prevent microbial contamination and is backed by a 25-year warranty against edgebanding delamination.

Advantages of FUZE versus traditional glue application

- 1.5 mm ABS edgeband;
- Non-toxic, PVC-free composition promotes healthier environments and sustainable design objectives;
- Offers enhanced durability and protection with greater resistance to moisture and impact compared to PVC edgebands;
- Easy cleanability as all sides are sealed from microbial contamination;
- Fully sealed edges for a refined look with no joints;
- 25-year warranty against edgeband delamination.

MADE TO LAST

Sustainability is central to Nex Nova's material selection. Aluminum shelves and pulls are crafted from recycled aluminum, felt panels consist of 60% recycled content, and cork-style panels blend natural and post-industrial waste materials, reflecting a deep commitment to environmental responsibility.
