Dear Senator Feinstein:

I demand that you oppose any proposal to grant the United Nations any control over the internet.

Your Subcommittee is set to begin considering this issue on Thursday, and I am deeply concerned.

The corrupt United Nations has no business regulating my free speech. It has no business ruling over the greatest tool of freedom ever created.

This proposal to grant the UN control over the internet in the name of international "fairness" is a scam. It is a clever plot to allow United Nations bureaucrats, and their allies in the U.S. government, the power to regulate the free speech of every American citizen.

I demand that you do everything in your power, to stop this bill.

Sincerely,
