Obama's Spanish Vote-Counters Have A History Of Being Hacked!

Protect Our Military Voting.
Shut Down SCYTL!

Please fax every Member of the House of Representatives immediately.

Barack Hussein Obama has hired a mysterious firm, based in Barcelona, Spain, to "help" process military absentee ballots.

This firm has a very sordid past, and its security procedures are not very good at all.

Executive Director
Gary G. Kreep, Esq.

It's clear that hiring SCYTL is part of Barack Obama's effort to make it as difficult as possible for our brave men and women in uniform to be able to vote.

That's why Congress must get involved NOW.

Please fax Congress, and demand that Members of the House of Representatives return to Washington, D.C., immediately, and fire SCYTL.

To send your faxes, please select the number of faxes that you would like to send at the right. The U.S. Justice Foundation will do the rest.

Hon. Eric Cantor
303 Cannon House Office Building
Washington, D.C. 20515

Dear Congressman Cantor:

I demand that you return to Washington, IMMEDIATELY, and force the Defense Department to fire the foreign firm

SCYTL that the Obama Administration has hired to process military absentee ballots.

This company's computer system has a history of being able to be hacked, and that throws into question the legitimacy of every vote processed by this company.

And, I believe that hiring SCYTL is part of a concerted effort to make it hard for members of our armed services to be able to cast a vote in this year's election.

Please stand up for our brave heroes overseas, and protect their right to vote. Fire SCYTL NOW!

Sincerely,
