Noise Control Engineering Journal

Volume 73, Issue 4 – just released

Research Articles

Enhancing ventilation holes acoustic performance through perforated absorption plate
pp. 428-437(10)
Authors: *NISHIMURA, SOHEI; NISHIMURA, YUYA*

Electromechanical Modelling and Analysis of Motor Whine in Electric Propulsion Systems
pp. 438-450(13)
Authors: *Rao, Bhyri Rajeswara; He, Song*

Improvements to methods to create realistic simulations of non-stationary vehicle wind noise for use in psychoacoustic tests
pp. 451-475(25)
Authors: *Yu, Jinghe; Davies, Patricia*

Design and Acoustic Properties of Novel Embedded Honeycomb Structures
pp. 476-495(20)
Authors: *Zheng, Yin; He, Qiang; Guo, Junlan; Shao, Wei; Zhu, Jiamei*

Model-Based Current Filter Design for Control of Vibrations due to Electric Motor Faults
pp. 496-505(10)
Authors: *Joe, Beom-Jin; Hong, Suk-Yoon; Song, Jee-Hun*

Case Study: Research on a Wireless Monitoring System for Vibration-Damping Track Structures of Chongqing Metro Oriented to Intelligent Operation and Maintenance
pp. 506-521(16)
Authors: *Zhao, Feng; Ma, Zhimin; Tie, Le; Huang, Dajiang; Lv, Bin; Su, Rina*

Numerical study on the optimization of two-dimensional valve structures based on LES for cavitation noise suppression
pp. 522-536(15)
Authors: *ZHAO, YONGHUA; zhang, Zeyu; yang, Zhichao; wang, yongqi; ruan, jian*

Case Study: SSEGAN: Incorporating Channel Attention Mechanism into SEGAN
pp. 537-552(16)
Authors: *Hua, Zhanhao; Lian, Zhigang*

Nomogram-Based Approach for Noise Level Prediction of Pneumatic Rock Drill
pp. 553-563(11)
Author: *Karanjkar, Atul Vasant*

Analysis and Design of Active Sound Absorption Muffler Based on Acoustic Electric Analogy
pp. 564-575(12)
Authors: *Jin, Jiyong; Zhu, Congyun; Yuan, Lei; Ding, Guofang; Ding, Zhoubo; Huang, Qibai*

Active Noise Control in Open Spaces Using Directional Parametric Loudspeakers
pp. 576-586(11)
Author: *Gao, Zhipeng*
