#### THE TOBACCO WAREHOUSE @ STANLEY DOCK

This is Liverpool's long awaited landmark development!

The UNESCO World Heritage site has always held great interest across the Northwest and the whole of the UK and there has probably not been a comparable development in Liverpool since the Colonnades at Albert Dock. It is currently the largest warehouse conversion in the UK.

Phase 1 of Stanley Docks redevelopment comprised the multi-award-winning Titanic Hotel & Rum Warehouse Conference Centre creating a truly unique destination for 'Life, Work & Leisure'.

Phase 2 comprises the redevelopment of the Tobacco Warehouse which is being transformed and nearly complete into two- and three-bedroom, duplex, dual aspect, loft-style apartments, overlooking the historic waterfront. The 14-storey Tobacco Warehouse was at the time of its construction in 1901, reported to be the world's largest building with a floor-area of approx. 15,000 sq.m. (1,614,586 sq.ft.). Its construction used 27 million bricks, 30,000 panes of glass and 8,000 tons of steel.

#### REGENERATION LOCATION

The development sits at the heart of the North Docks, only a short walk from Liverpool City Centre. The surrounding area is set to undergo major regeneration with the Ten Streets and Liverpool Waters masterplan advancing. In addition, the new Everton Stadium has gained government approval and is planned to be complete for the 2024/2025 football season.
