CREMATION SELECTIONS

“WORRY FREE CREMATION”™

In order that our clients may have a high degree of confidence in the cremation process, we have developed this “Worry Free Cremation”™ Process that your family may take an active part in.

FIVE STEPS PRIOR TO CREMATION:

1. The “wrist identification band” is placed on your loved one at the time we come to your home, hospital or other care facility.
2. The cremation container is labeled with your loved one’s name when they are placed into the secure refrigeration facility.
3. Your loved one is logged into the facility logbook with name, date, time and driver’s name and then placed into the secure refrigeration facility.
4. The General Manager or Office Manager reviews all cremation paperwork and permits to insure authorizations and permits have been received. One of them must sign the crematory checklist.
5. If you wish, the family may witness the cremation. The state-of-the-art cremation facility is set up to allow family members to be present when the body is placed into the cremation chamber. In fact, some religious groups include this as part of their funeral custom. At this point, the body is not embalmed; therefore the body may not be viewed in the cremation facility. If you choose to have a final goodbye, we would be honored to make arrangements for a final goodbye as a part of the initial arrangements with the family. See the many options for viewing within this guide.

FIVE STEPS DURING AND AFTER CREMATION:

1. Your loved one is removed from the refrigeration facility and noted in the facility logbook. Log shows date and time of cremation and crematory operator’s name.
2. The crematory checklist is dated; start time noted and signed immediately before and after the cremation takes place.
3. The crematory checklist and numbered identification tag are placed on the control panel of the cremation chamber during the cremation process.
4. After the cremation is completed, the cremated remains are swept out and taken to the processing station. The crematory checklist and numbered identification tag are placed on the processing station until the processing of the cremated remains is complete.
5. The number on the numbered identification tag and the cremation checklist are reviewed and a cremation certificate, and label are created prior to the placement of the cremated remains in the urn selected by the family, or the temporary container. Once all the security information has been verified, the cremated remains are placed in the urn.

SIMPLE

A MODEST CHOICE.

For the loved one whose firm convictions encompassed dignity, respect and simplicity, the Simple Cremation offers the closure that best reflects that tradition. With this selection, the remains are to be buried in a cemetery, kept at home for safe keeping, or dispersed in a scattering ceremony. This choice is simple, with the final wishes of the loved one being carried out by our professional staff of cremation arrangers.

"Just a Simple Cremation": \$895

- Transportation of the body
- Preparation of the required documents and authorizations
- "Worry Free" cremation
- Alternative container and temporary urn

Simple Cremation with Final Goodbye: \$1,150

- Transportation of the body
- Preparation of the required documents and authorizations
- "Worry Free" cremation
- Alternative container and temporary urn
- Final Goodbye at our cremation facility*

**In our Simple Cremation and Memorial Service options there is no embalming and only a very limited time that the deceased may be transferred out of refrigeration and identified. So that the deceased remains in an essentially refrigerated state, we respectfully request that the identification be for no more than 30 minutes from the time we agree to begin. In the interest of full disclosure while minimizing movement of the deceased, the identification occurs in the container that will shelter the deceased prior to cremation and will be later consumed in the cremation process. The fee for this scheduled Goodbye is included in the Simple Cremation with Final Goodbye. In the case of Autopsied remains, embalming is necessary (additional fee).*

MEMORIAL SERVICE

A GATHERING TO CARE AND SHARE.

A Memorial Service celebrates the life and the achievements of a loved one. The gathering of family and friends offers a special time for sharing thoughts and memories of the loved one as well as an occasion for comfort and support for each other.

If families wish to enhance this caring service, we are open to the use of a display of personal photographs and special mementos. In order to serve our families during this important event, our professional staff of arrangers will coordinate your Memorial Service.

CATHOLIC LITURGICAL RITES

THE MASS OF CHRISTIAN BURIAL.

The Catholic Church prefers that the body or the remains of the deceased be present for the funeral rite. The cremated remains, however, are to be treated with the same respect as the body before cremation. The church requires that the cremains should have a reverent disposition, including burial in a grave or entombment in a mausoleum or columbarium.

The Catholic Cremation celebrates the life of the loved one through several liturgical rites. In order to have the body of the loved one present during the mass, "Traditional Funeral Liturgy with Cremation to Follow" is the best choice. For those who choose to have the cremated remains of the loved one at the mass, "Cremation Before Funeral Liturgy" is the best selection.

VETERANS OPTIONS

THE FINAL SALUTE.

Our Veterans Services honor those who have chosen to endanger their lives for their countrymen. These options are tailored to the expressed desires of our people in uniform.

Our professional staff will arrange Military Honors for a dignified military service to be held at the Ohio Western Reserve National Veterans Cemetery in Rittman, Ohio. Special veterans urns, with the appropriate military insignia, will be used for these ceremonies. At that time, family and friends have an opportunity to gather to give a final salute to our fallen heroes while Taps is being played.
