3d Lacrosse

Player Development: At its core 3d Lacrosse is a training organization that focuses on player development. Every player becomes a “Play Maker”. This deeply-rooted philosophy means that regardless of their position on the field, a 3d player will learn to play both offense and defense as a team. All of our coaches live this concept daily, and while it’s initially uncomfortable for some players, they will soon experience huge gains in their Lacrosse IQ and become believers.

*Wide World of Indoor Sports South is conveniently located in Quonset Point
at 1610 Davisville Road (directly behind the closed Lowe's)*
