

EXACTA Cement Xtra

Zinc Oxide, Non Eugenol temporary cement indicated for all your provisional needs. Perfect for use with EXACTA Temp Xtra or any temporary restorative material.

PERFECT MATCH

If you are using EXACTA Temp Xtra, why not use the cement that was designed to work flawlessly with it? You won't regret using this!

DEPENDABLE

With just the right amount of retention, EXACTA Cement Xtra will provide peace of mind that temporaries will stay in place.

VALUE

Compare the costs of EXACTA Cement Xtra to what you are currently using. We will likely cost less and it is an amazing product.

Try EXACTA Cement Xtra and it will become a trusted part of your procedures.

Your time is valuable, as well as your patient's. The last thing either of you want is to have to schedule an appointment to re-cement a temporary crown.

EXACTA Cement Xtra was designed to provide just the right amount of retention and adhere to the temporary crown with greater strength than the tooth. This means when you remove the crown and the final seating appointment you will spend less time cleaning the prep prior to final crown seating. Additionally, EXACTA Cement Xtra will not discolor over time, so the margins will still look great even if temporaries are worn for an extended time.

TWO OPTIONS TO CHOOSE FROM:

Cartridge kit: 1 x 120g Cartridge with 25 mixing tips
\$137.95/kit 4+ = \$127.95/kit

Syringe kit: 1 x 11g Syringe with 10 mixing tips
\$31.95/kit 4+ = \$28.95/kit

OUR GUARANTEE

If you try EXACTA Cement Xtra and for whatever reason you decide not to continue using the product, simply give us a call and we will issue you a full refund. If the product needs to be returned to us, we will cover any shipping costs. When you try a new product from EXACTA Dental Direct, you have zero risk.
