Tools needed to complete the earrings:

Round nose pliers
Chain nose pliers
Wire cutters

Beading Techniques needed to complete the earrings:

Attaching an Ear Wire
Simple Loop

For step-by-step photos and instructions on these and other techniques, visit FusionBeads.com and select Beading Techniques from the top navigation bar.

Instructions to complete "Film Noir" earrings:

Step 1

Using wire cutters, cut two 1-inch lengths of chain. Set aside one length for the second earring.

Step 2

Open the loop on one ear wire (see Attaching an Ear Wire Technique), and attach it to one end link of one chain length. Close the loop.

Step 3

Place one 8mm Jet crystal oval mini bead onto one head pin, making one unit. Turn a simple loop (see Simple Loop Technique) at the open end of the head pin. Attach the loop just made to the same chain link (first link) attached to the ear wire.

Step 4

In the same manner as in the previous step, use simple loops on head pins to attach these beads to the specified chain links:

3rd link: 1 - 8mm Jet oval mini bead

5th link: 1 - 8mm Black Diamond oval mini bead

7th link: 1 - 6mm Black Diamond oval mini bead

9th link: 1 - 6mm Crystal Silver Shade oval mini bead

Last link: 1 - 6mm Crystal Silver Shade oval mini bead

Step 5

Repeat Steps 2 - 4 for the second earring.
