This coin was slabbed before Jan 19, 2011, so like others slabbed before then, or with some provenance, can be proven to be in this country before our genius bureaucrats prohibited their importation. What ethical realm are these people in? Especially bowing to the requests of an Italian government led by attendees of "bunga-bunga" parties where underage teens are present. Our customs and immigration employees can't keep out illegal immigrants, counterfeit US money, and drugs. Why should our tax dollars be wasted on Italian requests like this. Italy did not ask Mexico and Canada to restrict the importation of coins. Americans are singled out solely because we treasure the value of historical objects, which are way more common than bureaucrats pretend they are.
