# THE MUSCLE MAXIMIZER STACK

BY: KYLE LEON

## Welcome to my personal Lean Mass Building Stack Book.

I've literally used hundreds of supplements over the years trying to build my body up. Probably a lot like you, I've been thoroughly disappointed with the results time and time again. It actually almost hurts me to think about the amount of money I've wasted on Supplements over the years.

I've done enough trial and error for you and I to last a lifetime...Trust me on that!

After messing around with a countless number of pills and powders, the 4 supplements below when stacked together can take you that last 5-10% when your diet and training are completely dialed in.

These are the only 4 supplements that I used to prepare for my first job as a supplement sponsored athlete for Blue Star Nutraceuticals. As a sponsored athlete, I've had the opportunity to use any supplement I want, anytime, but I just stick to my custom stack below for aiding lean muscle growth because I know it actually produces results.

I'm not saying all other supplements are worthless because that's not true, but when it comes to building lean muscle without fat this is the only stack I believe has actually helped me to date.

Below, I'll lay out exactly how I used these supplements and continue to strategically use these supplements for every Somanabolic Cycle I do. Check it out:

Supplement	Dosage	When Kyle Takes
Iso-Smooth Protein	2 scoops	Post Workout
Status	2 capsules	Upon Rising and Before Workout
Rush	1 scoop	Before Workout
Creatine	1 scoop (after Loading Phase)	Before and After Workout

\*\*\*Please Note, I am using Status as my testosterone booster now because I've noticed a stronger affect with Status since I switched from using a Tribulus based supplement as my testosterone booster. I believe this is not only because of the strength of the product, but I believe I've over-used tribulus throughout the years and I do not notice the benefits as much anymore. My position remains the same though in that if you haven't used a testosterone booster before, tribulus is an EXCELLENT choice to get started, but if you want to jump right to Status (which is a Testofen based product) you can. To date, Testofen based products like Status appear to be the strongest natural testosterone boosters available. I must say I agree so far. \*\*\*

If you'd like to try my personal stack risk free, you can do so here:

Remember, this stack is not available anywhere but through this page. The owner of Blue Star Nutraceuticals has agreed to make my custom stack available to you at a discount. He has also agreed to provide you with these 3 bonuses:

### 1) FREE SHIPPING ANYWHERE IN CANADA OR THE U.S.

### 2) FREE SHAKER BOTTLE

### 3) FREE BOTTLE OF 120 CAPS BCAA

\*\*\*BCAA are an "on the fence" supplement to me. As I mentioned in my report, I use BCAA's when my body is in a caloric deficit as I've noticed it helps me hold onto all my lean muscle mass. I will not promote or recommend BCAA's as a necessary muscle building supplement because I can't honestly say I've noticed much in terms of that affect. That being said, MANY people swear by BCAA's, and there is a lot of research that shows it aids protein synthesis and the muscle building process. So the problem is I don't want you not taking something that might help you "just because" it didn't work for me, when there is research behind it and tonnes of guys who love it. So, the solution I came up with was to convince the owner to throw in a bottle FOR FREE with the stack so that you can make up your own mind. I'd love to hear about your experiences with this product now that you're going to get it for free! This is awesome because now you can either use it along with your stack OR save it and use it as I do; when cutting and trying to get to the lowest body fat % possible while holding onto lean muscle.\*\*\*\*

So if you want to go ahead with the Stack and all of the bonuses you can find it here:

One last VERY IMPORTANT thing to mention:

The owner of Blue Star Nutraceuticals has also agreed to give you a 60 day, 100% money back guarantee. This means that if for whatever reason you are not completely satisfied with your products, you are completely covered!

If that sounds like a fair deal to you, here is the link one last time: [>> The Muscle Maximizer Stack](#)
