## Real Texas Jalapeño Mayonnaise

### Ingredients

1 cup real Mayonnaise

3 – 4 fresh Jalapeños, seeded and halved

Salt and Pepper to taste

Put Jalapeños in a food processor and puree.

This is how it should look like. It's not a puree paste. It's just finely chopped Jalapeño.

Add mayonnaise. I would suggest using real mayonnaise because you need some of the fat and flavor to make it really good.

Add kosher salt and black pepper. After you mixed it this is how it looks like.

This is my Real Texas Jalapeño Mayonnaise.
