# Personal and Professional Fall Protection Catalog

Welcome to the latest edition of the Elk River Personal Fall Protection Catalog. We have created this catalog to be your go-to source for all your personal and professional fall protection needs.

We are also very excited about the new line of Harnesses featuring the Platinum Series. The Platinum Series features lightweight hardware for less fatigue, breathable padding and easy pull down adjusters. This makes our New Series comfortable for all day wear. We also offer a complete line of readily available products at competitive price points.

Our uncompromising quality contributes to your company's commitment to safety and productivity through comfortable working equipment. Our commitment is documented. Elk River has earned ISO 9001-2000 Certification, testimony to years of excellence not only in product design, development and production, but also in marketing, purchasing and customer service.

As our slogan says "where technology meets traditional values" – with this in mind, we give you the products you need, when you need them, backed by customer service representatives ready to discuss your specific application. This combination of values, expertise and technology allows us to provide the highest level of quality and service. We know you have choices. Thank you for your business and continued interest in Elk River's products.

## Anchorage

**Elk River anchorage connectors are designed to provide a strong connection to many types of anchor points:**

Anchorage connectors must be capable of supporting 5000 pounds (22kN) of force per worker. The anchorage must be high enough for a worker to avoid contact, during a fall, with the lower level. The anchorage connector should be located directly above a worker to avoid a swing fall situation if the worker should fall. All anchor points should be inspected and approved by trained and qualified personnel.

# Back Support

## Back Support

Back Support  
Retail Packaging:

**Extra Effective,  
Extra Protective,  
Extra Comfortable:**

The Back-EZE™ offers comfortable support which promotes proper lifting techniques under a variety of conditions.

30000 - 30006

40000 - 40006

### Back-EZE™ Black Polyester Safety Belts

Part Number	Size	Feature
30000	XS	without suspenders
30001	S	without suspenders
30002	M	without suspenders
30003	L	without suspenders
30004	XL	without suspenders
30005	2XL	without suspenders
30006	3XL	without suspenders

Part Number	Size	Feature
40000	XS	with suspenders
40001	S	with suspenders
40002	M	with suspenders
40003	L	with suspenders
40004	XL	with suspenders
40005	2XL	with suspenders
40006	3XL	with suspenders

Introducing the

# PEREGRINEPS Harness

**Front View**

Pull down adjusters on  
shoulder straps

Quick-connect  
buckles on  
chest and legs

Breathable Padding on  
Shoulders and Back

Light weight, less fatigue aluminum  
hardware at back, hips and seat strap.  
70° D-rings at hips & dorsal  
for fast easy connection.

Breathable Back Padding Support

Unprecedented Support for Construction Workers. Industry insiders have been  
quoted as saying the Padded Seat Strap allows a supportive advantage  
when installing concrete construction rebar.

**See Page 2 for complete  
features' list.**

**Rear View**

The seat strap has a wider  
removable aluminum bar.
