

visual learning systems

science

we are all visual learners

The use of visual media such as videos, animations, and images are essential in teaching science. There is no better way to learn about the workings of the human body, the forces in creating earthquakes, or the nature of chemical reactions than with visual teaching tools.

Why is visual media so important in today's science classroom?

- Teaching with visuals is instructionally efficient and saves valuable classroom time.
- Visuals take students to places not accessible to them, such as the Grand Canyon, the ocean floor, and inside a cell.
- Learning visually makes science exciting, fun, and memorable.

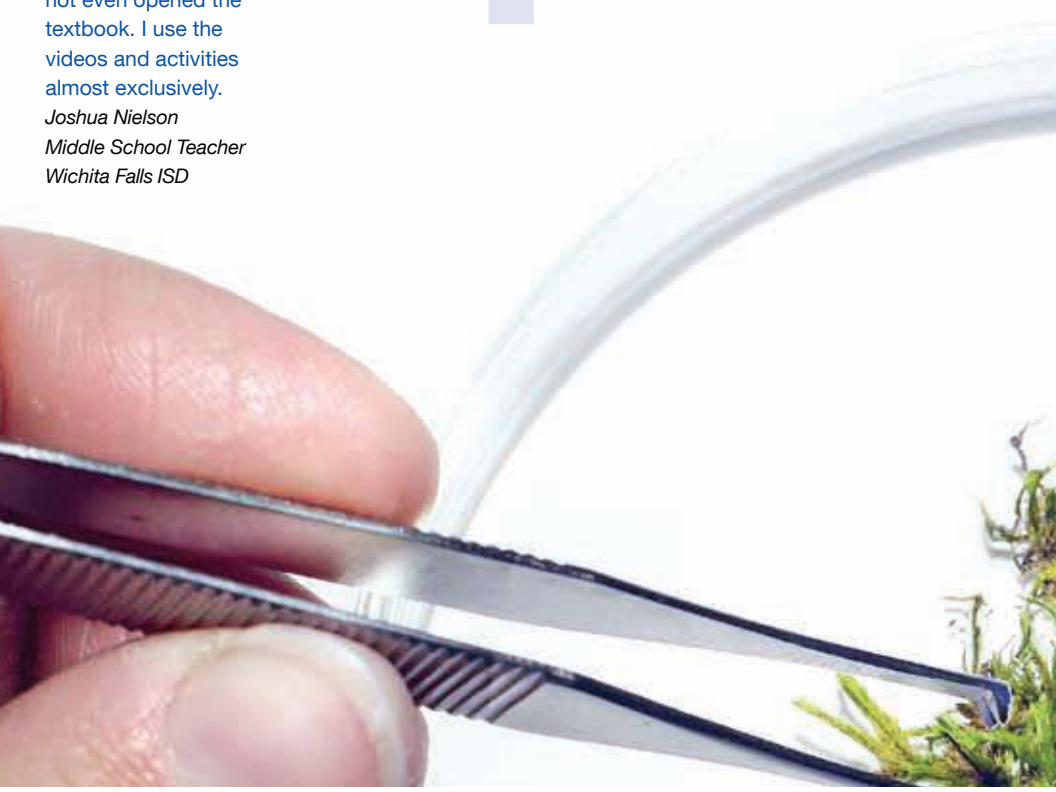

delivery options

"I absolutely love the videos. The quality and ease-of-use is extreme. For every topic that I cover in the school year I start off with watching the video. The activities are done beautifully. So far this year I have not even opened the textbook. I use the videos and activities almost exclusively.

*Joshua Nielson
Middle School Teacher
Wichita Falls ISD*

Online Subscription

This online service offers web-based access to the various levels of Visual Learning's vast science media library. No servers or special software needed. Grade-specific content includes closed-captioned videos, content clips, animations, images, metadata, and a comprehensive activity library. Content can be viewed using computer displays, projectors, digital whiteboards, and handheld devices.

Digital Video Streaming

For schools that want to create a customized visual media library, we offer digital media assets that serve as the core of your science collection.

Each Visual Learning Bundle includes: Windows Media 9 and H.264 video files, 12 to 20 .jpg image files, animations, teacher's guide in .pdf, and detailed metadata.

These digital media assets provide the flexibility to manage your own multimedia content tailored to the curriculum. Content can be streamed from a local server, stored on individual workstations or laptops, and downloaded onto iPads. The flexibility, wide range of applications, and ease-of-use make this an ideal tool for those who want to own digital rights in perpetuity and select their own educational content.

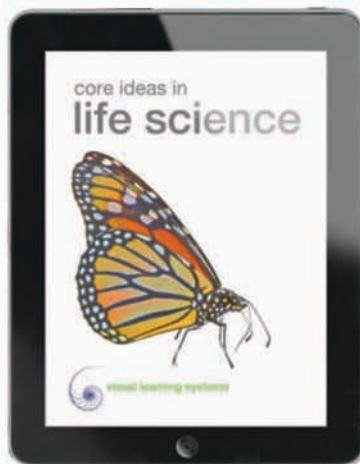

DVD

For those who want reliable technology in a central location our DVDs are ideal. Each DVD includes a complete index to video content, annotated slides, subtitles, glossary, and a comprehensive teacher's guide.

core ideas in life science

This is the most comprehensive, interactive, and colorful middle school life science textbook for the iPad . Fully supporting the Next Generation Science Standards, critical content is covered in an accurate, easy-to-teach, and easy-to-learn process. Packed with hundreds of captivating video clips, fun interactives and vibrant images, student curiosity is peaked, leading to long-lasting learning.

chapters	31
pages	1,070
interactives	100+
glossary words	718
movies	335
self-assessments	120
images	2,130
animations	100+

Pricing: \$14.99

Publisher: Visual Learning Systems

Requirements:

iBooks 2.0 or later,
iOS 5.0 or later

Available on the
iBookstore

The book embodies the type of interactive learning we want the students to be using.

- Del Ruff, Director of STEM for North Carolina Virtual Public Schools

We've been waiting for something like this!

- District Curriculum Coordinator in Tennessee

...really pull the kids into the love of learning.

- Dolores Freeman

tools & features

Videos produced by Visual Learning Systems are effective, engaging, and exciting – and should be a part of the teaching process in every science classroom. The superb quality of Visual Learning's programs make learning interesting and teaching fun.

Benefits

- Engaging: high-quality videos, images, animations, and activities peak student attention, maximizing comprehension and retention
- Teacher friendly: made by teachers for teachers – easy to use and saves time
- Innovative: whether streamed over the internet, displayed on digital whiteboards, or viewed on tablets, products leverage the most from existing technology
- Cost-effective: resources will be spent on products that will be used everyday

Grade level options

Visual Learning offers a complete, comprehensive visual image library for kindergarten through early college: primary, elementary, middle school, and high school/college. We also offer a popular collection of Spanish science content.

Special features

The well crafted palette of teaching videos represents the highest quality, most refined collection of visual-based science teaching products available. Here are some of the features that make our products unique:

- Instructionally appropriate videos, images and animations
- Content correlated to state standards and curriculum
- Time-saving, comprehensive teacher's guides
- Closed-captioned
- Annotated images
- Short video clips
- Multiple delivery options
- Technology compatible
- Friendly, helpful service

Visual Learning Systems' Spanish Science Collection is a comprehensive group of video programs, in DVD or Digital formats, which supports the standards-based science curriculum.

Each 10-15 minute video includes narration in Spanish and English, subtitles in Spanish, frequent on-screen questions, repetition of vocabulary, clear visual cues for understanding, and video assessment.

Every program also includes a time saving 15-30 page teacher's guide with preliminary and post assessments, laboratory investigations, and vocabulary activities in Spanish.

Visual Learning Systems' videos are widely used by ELL/ESL teachers and in Spanish Immersion, Bilingual, and Dual Language Programs. Videos can be purchased by title, series, or collection.

WEATHER SERIES

The Air Around Us, El aire que nos rodea

VLC270ESP \$69.95

Observing Weather, Observando el clima

VLC271ESP \$69.95

What is the Water Cycle?, ¿Qué es el ciclo del agua?

VLC272ESP \$69.95

Weather Safety, Seguridad climática

VLC273ESP \$69.95

PLANTS AROUND US SERIES

Plant Life Cycles, Ciclos de la vida de las plantas

VLC282ESP \$69.95

Plants with Flowers, Plantas con flores

VLC283ESP \$69.95

Trees, Los árboles

VLC284ESP \$69.95

Plants, Plantas

VLC285ESP \$69.95

LIVING THINGS SERIES

What do Living Things Need?, ¿Qué necesitan los seres vivos?

VLC286ESP \$69.95

Grouping Living Things, Agrupando a los seres vivos

VLC287ESP \$69.95

Cycles in Living Things, Los ciclos de los seres vivos

VLC288ESP \$69.95

Migration and Hibernation, Migración e hibernación

VLC289ESP \$69.95

Interactions of Living Things, Interacciones de los seres vivos

VLC290ESP \$69.95

Food Chains, Cadenas alimenticias

VLC291ESP \$69.95

Our Precious Earth, Nuestra preciosa Tierra

VLC292ESP \$69.95

EARTH SCIENCE SERIES

Fascinating Fossils, Fósiles fascinantes

VLC294ESP \$69.95

Soil and Rocks, Suelo y rocas

VLC295ESP \$69.95

Investigating Water, Investigando el agua

VLC296ESP \$69.95

Exploring Landforms, Explorando la topografía

VLC297ESP \$69.95

Changes on Earth, Cambios en la Tierra

VLC298ESP \$69.95

EARTH AND SPACE SERIES

Day and Night, Día y noche

VLC300ESP \$69.95

Planets, Planetas

VLC301ESP \$69.95

Sun and Stars, El sol y las estrellas

VLC302ESP \$69.95

THE BODY SERIES

Your Body, Tu cuerpo

VLC309ESP \$69.95

Healthy Habits, Hábitos saludables

VLC310ESP \$69.95

Investigating Heredity, Investigando la herencia

VLC311ESP \$69.95

Your Diet, Tu dieta

VLC312ESP \$69.95

INVESTIGATING ENERGY SERIES

Exploring Energy and Heat, Explorando la energía y el calor

VLC314ESP \$69.95

Using Electricity, Usando la electricidad

VLC315ESP \$69.95

What are Magnets?, ¿Qué son los imanes?

VLC316ESP \$69.95

MOVING ENERGY SERIES

Vibrations and Waves, Vibraciones y ondas

VLC318ESP \$69.95

What is Light?, ¿Qué es la luz?

VLC319ESP \$69.95

Exploring Sound, Explorando el sonido

VLC320ESP \$69.95

EXPLORING MATTER SERIES

Describing Matter, Describiendo la materia

VLC322ESP \$69.95

Exploring Solids, Liquids, and Gases, Explorando sólidos, líquidos y gases

VLC323ESP \$69.95

Physical Changes, Cambios físicos

VLC324ESP \$69.95

Chemical Changes, Cambios químicos

VLC325ESP \$69.95

Particles and Matter, Partículas y materia

VLC326ESP \$69.95

THINGS IN ACTION SERIES

Gravity, Gravedad

VLC328ESP \$69.95

Moving Things, Objetos en movimiento

VLC329ESP \$69.95

Helping Us Work, Utensilios para el trabajo

VLC330ESP \$69.95

GREEN PLANET SERIES

Biodiversity, Biodiversidad

VLC334ESP \$69.95

Impacts on Earth, Impacto en la Tierra

VLC335ESP \$69.95

Natural Resources, Recursos naturales

VLC336ESP \$69.95

Earth and You, La tierra y tú

VLC337ESP \$69.95

Keeping Earth Healthy, Cuidando la salud de la tierra

VLC338ESP \$69.95

Changing Climate, Cambio climático

VLC339ESP \$69.95

bundles

For those who want to select and own a customized visual media library, we offer **VISUAL LEARNING BUNDLES**. Each bundle has multiple, varied media assets that focus on a grade-specific science topic.

Benefits

Freedom: choose your own content and create a customized digital library that best fits your needs

Easy: integrates digital content with pre-existing computers, servers, and networks

Quality: content is focused, curriculum-centered, and engaging

Technology: integrates with computer networks, iPads, digital whiteboards, and handheld devices

Ownership: digital license creates stability

Features

Video: full videos and clips provided in both Windows Media 9 and H.264

Teacher's Guide: 15-30 pages of student learning objectives, standards correlations, lesson plans, and assessments (.pdf)

Student Activities: vocabulary, reading, writing, and hands-on activities (.pdf)

Animations: focused, narrated, and original (wmv and H.264)

Images: 12-20 slides (.jpg)

Metadata: keywords, length, title, series title, grade level, subject, and copyright (.xls)

Delivery: on DVD-R or hard drive

Pricing

Individual schools that purchase Visual Learning Bundles have an unlimited site license. This allows schools to install digital content on their building server or on classroom computers.

BUILDING PRICING

primary	\$69.95
elementary	\$79.95
middle school	\$89.95
biology	\$99.95

Pricing for larger institutions, state departments of education, regional consortia, or school districts, is based on K-12 student population. Licenses are typically provided for three years, five years, or in perpetuity. Call for a price quote.

HOW ARE VISUAL LEARNING BUNDLES USED?

Dallas County Schools (Texas)
Serves content from Visual Learning Bundles over a wide network using their own custom interface

Utah Education Network
Uses Equella interface to make Visual Learning content available to all educators throughout the state of Utah

New York State BOCES
Integrates Visual Learning digital content into Tek Data or MediaNet library automation systems

North Carolina School for the Deaf
Uses iTunes and iPads to make closed-captioned Visual Learning content available over HS network

Fabens Middle School (Texas)
Visual Learning Bundles are placed on the school server and made available to all science teachers

digital science

online

DIGITAL SCIENCE ONLINE is a subscription service that enables access to a comprehensive collection of visual teaching tools for the classroom. Educators are able to access Visual Learning Systems' vast science media library through their own web-based interface. Grade-specific visual elements make learning meaningful, interesting, and long-lasting.

Technology Integration

Digital Science Online provides quality, educationally exciting science content that brings out the best in existing classroom technology:

- Works seamlessly on PC and Mac systems
- Utilizes LCD projectors
- Works great on digital whiteboards
- Use on iPads, smart phones, and other handheld devices
- Connect at school or at home

Benefits

Simple: streamed over the internet

Saves time: no need to weed through irrelevant or old media

Cost-effective: collection valued at thousands of dollars for just one small yearly subscription fee

Features

Web-based interface: intuitive, and user-friendly

Videos: each edition has dozens of engaging, colorful, closed-captioned, full-length videos

Video clips: hundreds of indexed clips ideal for today's time constrained classroom

Animations: original animations make science concepts easily understandable

Images: annotated images add visual significance to school lectures and at-home learning

Activity library: printable collection of assessments, lab activities, vocabulary exercises, and reading activities

Teacher access: subscription allows ten teachers per school to access the complete library

Student and parent access: subscription enables access to the collection from school or home

Convenient: 24/7 accessibility

Searchable: use keywords or title to find the content for each lesson

digital science online

Digital Science Online is an annual subscription to a comprehensive collection of visual teaching tools. Teachers and students can access Visual Learning Systems' vast science media library of videos, clips, animations, images, and activities. Grade-specific visual elements make learning science meaningful, engaging, and long-lasting.

core curricular videos designed
specifically for the science classroom

video

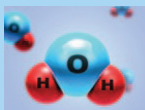

**hundreds
of full titles**
**thousands
of clips**

Videos and clips bring excitement and meaning to the science classroom.

all videos are closed-captioned

animations

Vivid 3-D animations make hard-to-teach concepts easily understandable.

images

Hundreds of annotated images add visual significance to lectures and at-home learning.

student activities

Complete data-bank of assessments, hands-on activities, vocabulary exercises, and reading activities reinforce visual learning.

students and teachers can log-in from anywhere
even at home

searchable

video and media can be searched and found easily with an easy-to-use interface

resources for teachers:

itemized learning objectives

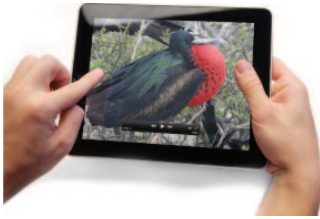

text transcripts

instructions for classroom use

answer keys

printable teacher's guides

student activities

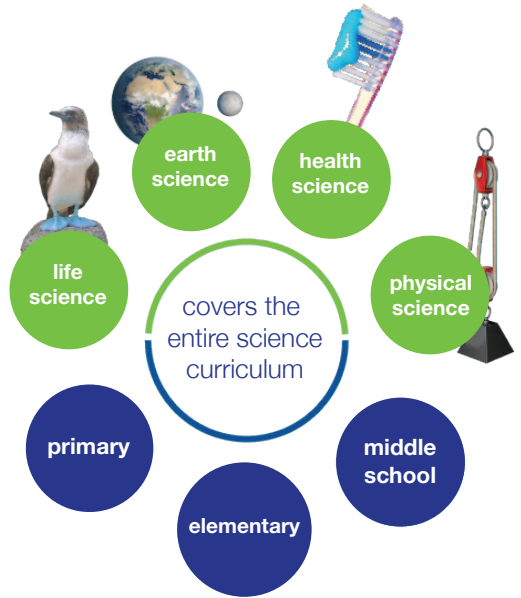

compatible

PC, Mac, SMARTBoards, iPads,
Tablets, and Netbooks

core curriculum

all media is correlated to state and
national learning standards, common
core and national guidelines.

for schools of all sizes

science

dvds

Visual Learning Systems' **SCIENCE DVDs** are proven and continue to play an important part in the contemporary science classroom. For those who want reliable technology in a central location, our DVDs are ideal. Each DVD includes a complete index to video content, annotated slides, subtitles, glossary, and a comprehensive teacher's guide.

Benefits

Easy to use: organized, reliable, and intuitive

Fascinating: content is crystal clear, colorful, and engaging

Relevant: correlates to the science curriculum taught in your school, and to national and state standards

Saves time: outstanding visual content along with the comprehensive teacher's guide saves teachers hours of valuable time

Features

Full-length video: 10-20 minutes

Live-action footage: filmed on location around the world

Vocabulary: words on screen

Quiz: follows each video

You Decide!: questions throughout each program

Menu: list of video chapters

Subtitles: enhance student comprehension

Annotated slides: 12-20 slides

Glossary: 10-15 vocabulary words

Teacher's guide: 15-30 pages of student learning objectives, standards correlations, lesson plans, and assessments (.pdf)

customer testimonials

Visual Learning produces quality programs that are beautifully shot and simplistically presented. The programs cover a wide range of topics and are in Spanish which allows our channel to reach a wider segment of the population. I'm so glad we found Visual Learning.

~ B. Price | ITV, Montgomery College, MD

"The professional staff at Visual Learning Company have provided excellent support and quality media that are utilized in classrooms across the county. Visual Learning titles are some of the most popular media streamed through our new digital server and the associated teacher guides are top-notch."

~ T. Devlin | Program Director , Allegheny I.U. , PA

"Materials from Visual Learning Company are consistently among the highest circulating items from our Media library. Visual Learning Company has set a high standard in the industry for powerful visuals, short segments and excellent support materials. We own all the titles available to date and will continue to acquire new productions."

~ J. Orzel | Media Services Coordinator, Broome-Tioga BOCES, Binghamton, NY

"I absolutely love the videos. The quality and ease of use is extreme. For every topic that I cover in the school year I start off with watching the video. The worksheets are done beautifully. So far this year I have not even opened the textbook. I use the videos and worksheets almost exclusively. With the iPods, I am able to send an absent student to the library to catch-up. I also use it to preview the videos at home. My way of teaching has changed for the better now that I have access to your videos."

~ J. Nielsen | Middle School Science Teacher, Wichita Falls ISD, TX

"I love how the DVD is formatted for use in the classroom with the segmented parts, the vocabulary words, the video quiz, and the teacher's guide supplemental information. I also like the narration for this age-group (K-3) and the very visual elements in both pictures and words as the information is described and explained."

~ S. Brisco | Assistant Professor , Oklahoma State University
