She loves traveling with her husband, and supporting her nieces & nephews in their endeavors. In her professional life, she owns an Educational Consulting business, advising schools in accreditation, compliance & professional development. #### *Adrienne's message to you:*

As a member of the Newport-South Coast Alumnae community, connecting with my DG sisters has been exciting & uplifting. Being welcomed from sisters from all across the country and working with them to support collegians and create fun events have been the highlight of the past few years. I was initiated in 1979 at the UCI chapter, but transferred two years later to Chapman, where Delta Gamma did not have a chapter. I am thrilled that a chapter at Chapman has now been established. Although I enjoyed my years at Chapman, there was a definite void, not having a DG sisters to connect with during my last two years of undergraduate studies. Being a contributing member to the Newport-South Coast group allows me to meet with women who understand the importance of education, leadership, and sisterhood.
