

SERVICE BULLETIN

TO: AS-1975 MANUAL OWNERS/AWLD DIST
 SUBJECT: 709271 IGNITION

NO. AS-1300
 DATE: 9/22/06
 FILE IN: BULLETIN BINDER

Strattec has an alternative to dealer only OE ignitions that are not manufactured by Strattec.

The Strattec ignition lock (part #709271) was originally designed for GMT900 trucks and SUV's. Strattec ignition lock cylinders have a solid, all-zinc cylinder and the tumblers are supported by zinc tumbler wards instead of plastic housings. These locks have sidebars pre-assembled. All a locksmith must do is code the locks with tumblers and springs.

The Strattec 709271 ignition can be used as an alternative to dealer only ignitions. The chart below identifies which vehicles that can accept the 709271.

Please contact your local Strattec distributor for this ignition.

Model	Make	Years	OE	GM Ign #	SSC#	Key	Key Description	Pinning Kit
Buick	Lucerne	06-07	Ortech	12451091	709271	693126	93 Grv, Circle +	709448, Kit #2
