STRATTEC introduced ignition lock #707592 in 2001 as a replacement for the OE version of the Focus ignition.

(707592)

This particular ignition utilizes a **door** tumbler system. Use tumblers 322261 – 322265 and **door** spring 46969. These components can be found in your current Ford pinning kit #703373 or STRAT-A-Various kit # 705940.

(322261-322265)

To aid in the assembly and disassembly of the ignition, tool # 381944 is available at your local STRATTEC authorized Distributor.

Please contact your local STRATTEC distributor for price and availability on these items.
