

The Allied Providers Council – Join Us!

Using cutting edge eBusiness to advance agriculture

Lower the barriers to integration

We're working together to make it easier for businesses to integrate, collaborate and exchange critical business information in real-time. Take advantage of eBusiness standards to lower the cost of integration for you and your customers.

Help shape the future of eBusiness standards for agriculture

Join our active community of software vendors and solution providers that work closely with ag industry leaders to define the AgGateway standards and select new integration technologies.

Learn how to integrate eBusiness standards into your business solutions offerings

You'll learn about eBusiness standards and how you can incorporate cutting edge eBusiness capabilities into your agriculture software products and services.

Council Mission

Create a forum in which agricultural information service providers can review, discuss and provide organized feedback to the members of AgGateway about issues pertaining to the design and implementation of standards that support electronic solutions.

Allied Providers Council Objectives

- Advise AgGateway in the establishment of standards which create a framework for individual solutions.
- Help ensure solutions and programs are within the reach of all channel members.
- Act as a technical advisor to AgGateway.
- Conduct and facilitate educational activities in support of AgGateway's goal of educating target segments in the techniques and benefits of eBusiness.

Working Groups & Technical Workshops

The council supports a variety of working groups that address eBusiness challenges, and hosts technology workshops to help members more rapidly adopt the eBusiness standards and AgGateway implementation guidelines.

- Technology workshops such as AGIIS integration, electronic order lifecycle (orders, invoices, advanced ship notices), product movement reporting, and precision agriculture integration.
- Working groups that explore new technical solutions and processes – web services integration, XML messaging, integration registries, branding guidelines, and a variety of other initiatives.
- Allied Providers Capability Matrix that helps AgGateway members identify companies with products and services which address their business challenges.
