Passione Nera is made from the infusion of green aniseed, elderberries and various spices. The flavor is different from traditional Sambuca, owing to a special blending of the spices focusing on cardamom, seeds of East Indian herbs and a member of the ginger family.

Characteristics:	Color: Purplish black. Aroma: Markedly anise and licorice. Flavor: Mediterranean-style Sambuca taste, with star anise at the forefront, with light, spicy hints of cardamom and coriander bringing a velvety sensation to the palate. The finish is rich in lovely licorice.
