## MR PREREQUISITE 1: STORAGE AND COLLECTION OF RECYCLABLES

All fields and uploads are required unless otherwise noted.

### ALL OPTIONS

This static sample form has been modified for offline access. All sections of the form are visible. Sample forms are for reference only.

Describe the methodology used by the project team in creating the waste study. List the source of the data if historical data from a similar existing store (in size and function) was used, or if a source was not used, describe the rationale surrounding the waste projections. List the top 5 recyclable waste streams by weight or volume, and indicate the top 3 waste streams for which collection and storage space will be provided.

**Upload MRp1-1.** Provide an excerpt of the waste stream study conducted by the project team which highlights the top 3 waste streams identified.
