

# LEED 2009 for Retail: Commercial Interiors

## WE CREDIT 1: WATER USE REDUCTION

All fields and uploads are required unless otherwise noted.

### ALL OPTIONS

This static sample form has been modified for offline access. All sections of the form are visible. Sample forms are for reference only.

The following linked information is from WE Prerequisite 1: Water Use Reduction - 20%. The WE Prerequisite 1 form must be completed before compliance with WE Credit 1 can be documented. To modify the information below, please see WE Prerequisite 1.

Select one of the following:

- ☐ Fixtures and fixture fittings located only within the tenant space meet the needs of the occupants. Tenant occupants will not use fixtures and fixture fittings located outside the tenant space.
- ☐ Fixtures and fixture fittings located only outside the tenant space meet the needs of the occupants. There are no fixtures or fixture fittings located inside the tenant space.
- ☐ Fixture and fixture fittings located both within and outside the tenant space meet the needs of the occupants. The project team is pursuing water use savings for these fixtures and fixture fittings, including those located outside the tenant space whether existing or installed and/or upgraded as part of the project.
- ☐ Fixture and fixture fittings located both within and outside the tenant space meet the needs of the occupants. However the water use savings will exclude the fixtures and fixture fittings located outside the tenant space.

☐ The project team will use the WE Prerequisite 1 Form to document credit compliance.

*Note: The checkbox above is read-only. The project team is exempt from WE Prerequisite 1. However, in order to document compliance with this option in WE Credit 1, the calculations in WE Prerequisite 1 must be completed. To modify the checkbox above and/or to document water savings for the fixtures and fixture fittings located outside the tenant space that meet the needs of the tenant occupancy, please see WE Prerequisite 1.*

The project is not eligible to pursue WE Credit 1 because the fixtures and fixture fittings located outside the tenant space that meet the needs of the tenant occupancy are not included in the calculations.

**Table WEc1-1.** Flush and Flow Fixtures Summary Statistics

Total calculated fixture water use annual volume, baseline case (kGal)	
Total calculated fixture water use annual volume, performance case (kGal)	
Percent reduction of water use in all fixtures (%)	

**Table WEC1-2. Process Water Use Summary Statistics**

Total calculated process water use annual volume, baseline case (kGal)	
Total calculated process water use annual volume, performance case (kGal)	
Reduction of Water Use in all Process Water Equipment (%)	

*The reduction for both fixture and process water use must be at least 30% each for 6 points, at least 35% each for 8 points, and at least 40% each for 11 points.*

## ADDITIONAL DETAILS

- ☐ Special circumstances preclude documentation of credit compliance with the submittal requirements outlined in this form.

### SPECIAL CIRCUMSTANCES

Describe the circumstances limiting the project team's ability to provide the submittals required in this form. Be sure to reference what additional documentation has been provided, if any. Non-standard documentation will be considered upon its merits.

- ☐ The project team is using an alternative compliance approach in lieu of standard submittal paths.

### ALTERNATIVE COMPLIANCE PATH

Describe the alternative compliance path used by the project team. Include justification that this path meets the credit intent and requirements. Be sure to reference what additional documentation has been provided, if any. Non-standard documentation will be considered upon its merits.

**Upload WEC1-ACP.** Provide any additional documents that support the alternative compliance path approach. (Optional)

*Files:*

- ☐ The project team is using the above alternative compliance path to document exemplary performance of WE Credit 1.

## SUMMARY

WE Credit 1: Water Use Reduction Points Documented:

WE Credit 1: Water Use Reduction Exemplary Performance Documented:

- ☐ The project team reserves one point in the Innovation in Design credit category for exemplary performance in WE Credit 1.
