Table L-3. CSI Divisions 03-10, 31.60.00, 32.10.00, 32.30.00, 32.90.00 Materials

Fill in all columns with applicable material data for all attempted credits among MR Credits 3-6. Exclude materials included in MR Credit 1: Building Reuse and all mechanical, electrical and plumbing (MEP) components and equipment.

Note: This table will carry material data across MR Credits 3-6 to ensure consistent documentation; however, the summary table in this form only pertains to this credit. For more column information, hover cursor over abbreviated column heading.

Table Indicator:

* Cost, in the case of a salvaged item, can be the actual or replacement value, but must be consistent with the cost used to calculate the total materials cost for the project.

****** In lieu of exact distances, estimated distances may be used. If estimated distances are used, upload the manufacturer's letter stating that the material/product was manufactured and extracted/recovered/harvested within 500 miles of the project site.

******* Product cutsheets uploaded for documentation of credit compliance should include material data for all applicable credits.

Materials claimed for MR Credit 3 may not be applied to MR Credits 1, 2, 4, or 6. Please select the appropriate credit and enter data in that credit column only.

Percentages may not exceed 100. Please revise the values entered.

The sum of postconsumer (% Post) and preconsumer (% Pre) recycled content may not exceed 100. Please revise the values entered.

The sum of total costs per item may not exceed the total materials cost for the project. Please revise the values entered.
