

MR CREDIT 2.1: SUSTAINABLE PURCHASING ELECTRIC-POWERED EQUIPMENT

All fields and uploads are required unless otherwise noted.

This static sample form has been modified for offline access. All sections of the form are visible. Sample forms are for reference only.

TIP: Refer to the project's Environmentally Preferable Purchasing policy from MR Prerequisite 1, as that establishes the policies, goals, and practices that lead to achieving MR Credit 2.1.

Performance period start:

Performance period end:

Total cost of electric-powered durable goods purchased for the project building and associated grounds during the performance period, including both sustainable and non-sustainable purchases:

\$

- ☐ The purchases included in the total above were omitted from any calculations for MR Credit 1, MR Credit 2.2 and MR Credit 3.

Enter the requested data for all purchases made during the performance period in Table MRc2.1-1. If a sustainability criterion does not apply to the product, leave the field blank. Purchases may be listed by specific dates of purchase or regular purchasing periods (e.g., monthly or quarterly purchase totals); purchasing periods may not exceed 3 months.

Hover over the column headers for more detail.

Table MRc2.1-1. Electric-powered equipment purchases

							Sustainability Criteria			SWV (\$)
Date	Purchaser	Item	Cost / Item (\$)	# Items	Value (\$)	Doc?	ENERGY STAR	Replaces Gas-Powered Equipment	EPEAT	
						<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
Total sustainable purchases value (\$)										
Total sustainable purchases weighted value (\$)										
Sustainable purchases of electric-powered durable goods (weighted value) represents the following percentage of total electric-powered equipment purchases ¹ (%)										
Percent purchased value with documentation from product manufacturers or suppliers verifying product compliance with the specified sustainability criteria ² (%)										

¹ Must be 40% to earn MR Credit 2.1, 80% to earn exemplary performance.

² Must be 20% minimum, by cost.

Upload MRc2.1-1. Provide documentation from product manufacturers or suppliers verifying product compliance with the specified sustainability criteria (minimum 20%, by cost).

Select one of the following:

- ☐ The project building is a single management/control building, pursuing no tenant-related exemptions and needs no tenant-related special calculations.
- ☐ The project building is a multi-tenant building.

MULTI-TENANT BUILDING

10% EXEMPTION

Select one of the following:

- ☐ Up to 10% of the building's gross floor area is exempted from this credit and from the total costs described above because it is occupied by tenants that would not share data on total purchases.
- ☐ Total costs reported above are comprehensive for the entire project building and do not include any exemptions.

EXEMPTED FLOOR AREA

Gross square footage of the project building(s): sf

Table L-1. Space Usage Type

Enter information for all general usage types within the project building; group spaces with similar characteristics. Non-regularly occupied support spaces (e.g., storage, mechanical spaces, bathrooms, etc.) should be included in the Gross Area of the Space Usage Type for which they are ancillary.

Space Usage Type	Space Name / Description (Optional)	Gross Area (sf)	Owned or Leased	Lease Type	Regularly Occupied Gross Area (sf)	Unconditioned Gross Area (sf)	Prerequisites/ Credits From Which Space is Excluded, if any
Total gross area (sf)							
Total leased gross area (sf)							
Percentage leased gross area (%)							
Total regularly occupied gross area (sf)							
Total unconditioned gross area (sf)							

For all spaces exempted from MR Credit 2.1: Sustainable Purchasing: Durable Goods - Electric-Power Equipment, describe the reason for the exemption and efforts made to acquire information related to MR Credit 2.1 documentation.

TENANT SUSTAINABLE PURCHASES

Select one of the following:

- ☐ The project team is seeking recognition for tenant sustainable purchases in this credit.
- ☐ The project team is not seeking recognition for any tenant sustainable purchases in this credit.
- ☐ The uploaded supporting documentation for sustainable electric-powered durable good purchases from the table above includes at least the single largest sustainable purchase (by dollar value) made by each separate participating entity occupying the building (project applicant, tenant, etc.) during the performance period.

ACTUAL OR ESTIMATED COSTS

Select one of the following:

- ☐ The total cost of durable goods (electric) entered in Table MRc2.1-1 is based on actual costs.
- ☐ The total cost of durable goods (electric) entered in Table MRc2.1-1 is based on a combination of actual and estimated costs.

Upload MRc2.1-2. Provide the calculations and rationale establishing the appropriateness and robustness of the single largest purchase estimate for each tenant for which the project team has estimated costs. In the rationale, indicate that when estimates are uncertain, the calculations were made conservatively.

ADDITIONAL DETAILS

- ☐ Special circumstances preclude documentation of credit compliance with the submittal requirements outlined in this form.

SPECIAL CIRCUMSTANCES

Describe the circumstances limiting the project team's ability to provide the submittals required in this form. Be sure to reference what additional documentation has been provided, if any. Non-standard documentation will be considered upon its merits.

Upload MRc2.1-SC. Provide any additional documentation that supports the claim to special circumstances. (Optional)

- ☐ The project team is using an alternative compliance approach in lieu of standard submittal paths and/or documentation.

ALTERNATIVE COMPLIANCE PATH

Describe the alternative compliance path used by the project team. Include justification that this path meets the credit intent and requirements. Be sure to reference what additional documentation has been provided, if any. Non-standard documentation will be considered upon its merits.

Upload MRc2.1-ACP. Provide any additional documents that support the alternative compliance path approach. (Optional)

- ☐ The project team is using the above alternative compliance path to document exemplary performance of MR Credit 2.1.

SUMMARY

MR Credit 2.1: Sustainable Purchasing - Electric-Powered
Equipment Points Documented:

MR Credit 2.1: Sustainable Purchasing - Electric-Powered
Equipment Exemplary Performance Documented:

- ☐ The project team reserves one point in the Innovation in Operations credit category for exemplary performance in MR Credit 2.1.
