

# Suez Nantong Incineration Plant Commissioning

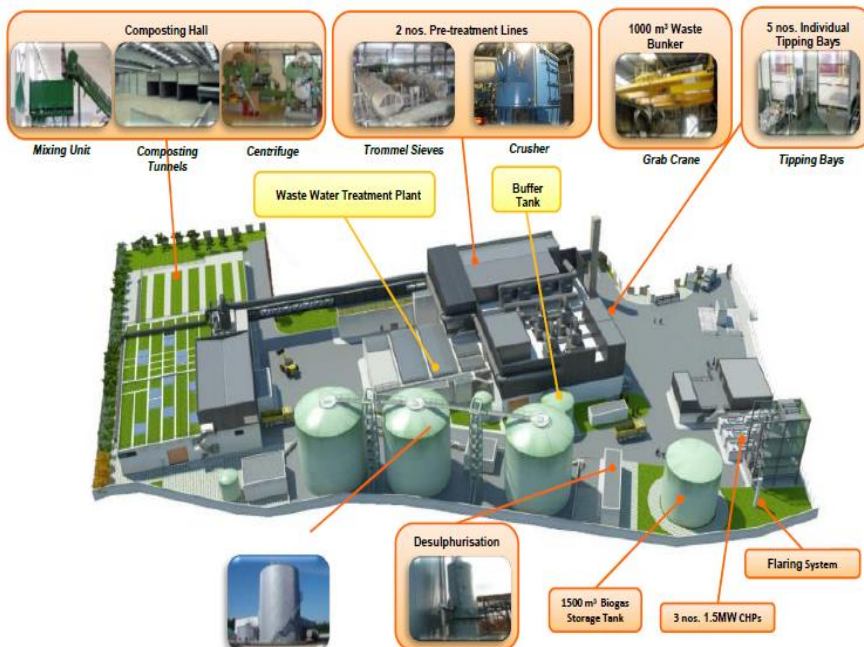

Operator/ Client: SUEZ ENVIRONNEMENT -SITA Waste services Ltd  
 Project/ Location: Waste Management & Incineration Plant/ Nantong , China  
 Scope of Services: Commissioning Services

## SITA Nantong Energy Recovery Plant at a glance:

SUEZ ENVIRONNEMENT, through its subsidiary SITA Waste Services Ltd., signs the contract with Shanghai Chemical Industry Park Investment Corporate (“SCIP”) and Nantong Economic Technology and Development Area Company (“NETDA”) to establish a joint venture (“JV”), gathering SUEZ ENVIRONNEMENT at 60%, SCIP at 30% and NETDA at 10%, for the construction and operation of a new hazardous waste–to energy recovery plant in the Nantong

Economic Technology and Development Area (“NETDA”). The contract will approximately generate a revenue of 575 million euros (4.9 billion RMB) in the coming 30 years.

The new energy recovery and treatment plant has a designed capacity of 30,000 tons/year for the treatment of locally generated hazardous waste and the professional treatment of 3,300 tons/year of medical waste. This state of the art incinerator will strictly meet both Chinese and European emission standards and be managed according to the best international safety and environmental standards.
