

Our customers want to know

Q Can anyone come into the workroom to work?

A Our workroom is designed to be an inspirational and creative center for our customers. With the exception of special events and Friday night Mania, it is available free of charge for our customers during store hours. Even when we hold classes, half of our workroom is available for customer use. Customers need to check in at the counter before using the work room. They can then make purchases as they work, and pay when finished. Because our workroom is very popular, you may want to call ahead and see how busy we are. The good news is that our new stores in Eden

Prairie and Roseville have 50% more workroom space.

Q What is the difference between Archiver's Scrapbook Basics Class and the Classic Album Class?

A Both classes were designed to help our customers enjoy and preserve their photos, but through different album styles. While both classes discuss choosing an album and using photo-safe adhesives and writing tools, the Classic Album Class focuses on following a clean, timeless style with few embellishments. The Scrapbook Basics Class features the use of more elaborate design elements such as stickers, die-cuts, pens and papers, resulting in more decorative pages.
