**Faculty Senate Resolution**  
**Classroom Technology**

Whereas Southern Connecticut State University exists for the primary purpose of furthering academic excellence;

And whereas the faculty is committed to providing instruction enhanced with technology;

And whereas the use of information technology and instructional technology are rapidly increasing as tools for classroom and laboratory teaching and learning;

And whereas implementation of technology is not currently integrated in the design of new general purpose classrooms and laboratories;

Be it resolved that:

The design and construction of all new, refurbished, or converted general purpose classrooms and laboratories include the installation and implementation of technology equipment and services, including but not limited to:

- A projection or wall mounted video display system appropriate to the size of the room
- An audio/speaker system
- An internet connection
- A document display (ELMO) system
- The ability to connect a laptop computer to the display, audio, and internet systems, and
- A telephone
