

Grooming

We are a full service professional pet salon catering to both dogs and cats. A wide array of services are available - Starting from the most basic, such as "Bath & Brush" to the full haircut, elite Spa Packages, or the one and only "Furminator".

Have you noticed that your pet has fleas, dry or itchy skin? We perform medicated, remoisturizing, and flea baths. Routine grooming also helps with these problems.

Have you ever watched Westminster Dog Show and wish your dog looked like that? We can do that! Breed-standard haircuts are available. Or maybe you can't handle all of that hair? We also offer shave downs and mat removals.

All of our bathing services include nail trimming, ear plucking and cleaning, anal gland expressions, complete full body massage, spray coat conditioner, blow dry and complete brush out!

Pets will love to be pampered with our Furminator. We start with a rich conditioner-filled bath and massage. A remoisturizer is then applied followed by a blow-dry and lots of brushing. Owners love the results of the Furminator due to the great reduction of shedding (by 60-80%)!

If you prefer to give your pet a bath at home, we have "A la Carte" services such as nail trims, touch-up packages and tooth brushing.
