

Feline Pre-Anesthetic Consent Form

Like you, our greatest concern is the well being of your pet. Before putting your pet under anesthesia, we will perform a full physical examination. However, many conditions are not detected unless blood screening is performed. Our laboratory is fully equipped and staffed to perform these important blood tests. Results will be immediately available to examine before anesthesia and/or surgery.

FELINE LEUKEMIA/AIDS TEST: Leukemia and AIDS are contagious, often fatal diseases in cats. These viruses can be harbored for long periods of time without causing illness.

Additional cost: **\$51.00** YES NO

INTESTINAL PARASITE SCREENING: This test allows us to detect intestinal parasites (worms) that can be harmful to your pet and can be transmitted to humans, especially children.

Additional cost: **\$35.00** YES NO

REVOLUTION: The outdoors has a way of inviting itself in everyday. Make sure your cat is protected. With a simple monthly dose of **Revolution** you can help keep your cat safe from a whole host of parasites. Protect against **FLEAS, HEARTWORM, HOOKWORM, ROUNDWORM AND EAR MITES.**

| | |
|--|----------|
| Feline Revolution Over 15 pounds – Buy 6 doses get 2 free - \$12.25 / dose | \$ 98.00 |
| Feline Revolution Over 15 pounds – Buy 9 doses get 3 free - \$11.25 / dose | \$135.00 |

YES NO

LASER THERAPY: Laser therapy reduces swelling of soft tissue caused by surgery. Reducing this swelling decreases pain and shortens healing time. Your pet will be given pain medication during and after surgery.

The additional cost for this procedure is **\$20.00.** YES NO

MICROCHIP PLACEMENT: Would you like your pet to have a microchip implanted while here? This would aide in identifying your pet if he/she were lost.

Additional cost: **\$45.99** YES NO

Please provide e-mail address for microchip registration_____
