

Sick and Hospitalized Pets

Call our office **AT THE FIRST SIGN OF ILLNESS** in your pet. It is our pet's nature to hide signs of illness. This means that often animals are quite ill by the time they start acting sick.

We know your pet will feel more at ease with you at home, but sometimes sick patients need services that can only be performed in the hospital. We strive to keep the length of hospital stays as brief as possible.

While in the hospital your pet will rest comfortably in our hospital ward. A veterinary assistant is assigned to monitor the condition of each patient and to provide attentive medical treatment with tender loving care. Your pet's doctor will consult often with you to inform you of your pet's progress and to discuss treatment options. We are available to address any questions or concerns.

We Want You To Know

Payment and Fees – We make every effort to ensure that all fees are fair and reasonable; you are encouraged to discuss charges before services are rendered. We accept cash, checks, debit, M/C, VISA, Discover and CareCredit®. It is the policy of this hospital that payment for professional services be made at the time they are performed.

Treatment Plans – We are happy to provide you with a written treatment plan of any service to be performed. Please realize that this is an estimate and it is sometimes difficult to anticipate an individual pet's treatment needs.

Emergency Services – Please call us at once for an emergency. Care is always available for your pet. Emergencies during hospital hours are given priority attention over routine procedures. In most cases, after-hours emergencies will be referred to **Motherlode Pet Emergency Clinic, 530-676-9044 or VCA 916-362-3111.**

Website Health Resource & Pet Portals

As we move on your pet's journey to wellness it is important to fully understand the nature of your pet's health. The **Goldorado Animal Hospital** website (www.goldorado.vetsuite.com) is the key for you to make better decisions about your pet's health and well-being.

Pet Portals – A personal portal to view your pet's record any time, from any place with Internet access. It's updated each business day, so the information displayed on your pet is always current. This is a complimentary service to our clients.

Each time you sign in to your Pet Portal from our website you can:

- View your pet's vaccinations
- Request medication refills online
- Update your account
- Request appointments
- Create e-mail reminders to help keep track of your pet's medication schedules
- Review previous health services and medication history
- Use Pet Mail for non-urgent communication

Boarding - Day Care - Professional Grooming

Boarding – We offer both routine boarding and medical boarding. For our feline friends, we have a boarding facility which is completely separate from the canine boarding area. We also offering boarding for birds, small animals and exotics.

Day Care – A playing dog is a happy dog! Instead of leaving your dog at home for extended periods, we offer a doggie day care option. Your best friend will have a safe place to play while socializing with other dogs and human supervision.

Grooming – Expert grooming for dogs and cats is done in our specially equipped grooming salon by an experienced professional master groomer with over 15 years of grooming experience using the finest equipment, and most importantly, tender, loving care.

Monday - Friday ~ 7:00am - 6:00pm

Saturday ~ 8:00am - 2:00pm

Our Philosophy

At Goldorado Animal Hospital we are committed to providing comprehensive, quality care for patients to enhance their well being and quality of life. We achieve this by

having a compassionate, knowledgeable and professional staff, utilizing the latest technological advances and implementing the foremost medical practices. It is our goal to educate and involve clients in a lifetime health care plan for their special companions.

Your Pet's Caregivers

We work hard to maintain an excellent staff of doctors, receptionists, and technicians. Our staff is a GREAT team, with the right mix of skills and backgrounds, and has been carefully chosen to provide the best care for your pet. All staff members participate in continuing education programs. We offer a wealth of knowledge and experience in the care of your pets. Most staff members have special interests or areas of expertise within the practice. All of our staff cares deeply about our patients.

Individualized Health Plans

Prevention is the key to a long, healthy life for your pet. With that in mind, Goldorado Animal Hospital emphasizes proactive preventative medicine.

After completing a yearly or semi-annual Comprehensive Physical Examination, our veterinarian will evaluate your pet's age, breed, and lifestyle to determine the risk of potential disease. After discussing your pet's needs, we will custom design a preventative health care plan and vaccination schedule for your pet.

- Microchipping

STATE OF THE ART
STATE OF THE HEART

In-House Laboratory – Our in-house laboratory gives us point-of-care diagnostic abilities when we're treating sick or injured pets, and allows us to properly evaluate every surgical case prior to anesthesia.

Surgery – We provide all types of soft tissue and most orthopedic surgical services. If your pet requires surgery, our doctors will make sure that you understand all aspects of the surgery and all options available. We take great care to make sure that your beloved pet is treated as if it were our own.

Advanced Anesthesia & Anesthetic Monitoring – Our monitoring allows us to closely watch heart rate, respiration rate, oxygen saturation, ECG and blood pressure. Our anesthetic drugs are the best provided to ensure the highest level of safety for your pet during the anesthetic procedure.

Pain Management – We take pain relief very seriously. Pain management is critical to your pet's recovery, so we take a proactive approach to ensure that your pet is as comfortable as possible using the most effective medications available.

Digital Radiology – We utilize state of the art digital radiology equipment to aid in the diagnosis of many disorders and injuries. We also have a digital x-ray machine specifically used to produce the best quality dental radiographs.

We Love Our Senior Pets

Dogs and cats over the age of seven are seniors and they need special attention. Senior pets are at risk for the development of cancer, diabetes, arthritis, and other serious medical conditions. Often these conditions come on gradually, and owners may not detect early clinical signs. To keep your pet feeling his best and with you and your family as long as possible, we recommend twice yearly check ups.

Goldorado Animal Hospital is equipped with a wide array of advanced equipment to provide the best care for your pet.

Progressive Dental Care

The number one health problem diagnosed in 8 out of 10 pets, over 4 years of age, is periodontal disease. We provide an extensive dental care program. Our clients have become aware of the importance to have their pet's teeth examined and cleaned on a regular basis. Preventive dental care can add 2-4 years to the life of a pet. Optimum dental care truly is a fountain of youth for your pet.

BEFORE

AFTER

AAHA Accreditation

In 1989 we received our accreditation as a member of AAHA. We are one of the less than 15 percent of North American veterinary hospitals with this accreditation. AAHA accreditation means that we meet strict standards for excellence in over 400 areas of patient care. Our facility is regularly inspected by AAHA. Members must meet the highest standards in the delivery of professional pet care.
