

Our Practice Philosophy

We view the opportunity to work with you as a privilege. It is as simple as that. As horse people ourselves, we know what your animals mean to you and we understand your concerns.

We will always strive to provide you with the highest quality veterinary care available. We will function as an advisor to help you keep your horses healthy and performing at their best.

We will stand behind our work and stand beside you when you need us.

Equine Services

Equine Performance

Dr. Chris Randall, DVM
231-588-6117

Your horse needs to be at his best...

For your horse to perform at his best, he needs to be in the best possible health. Simple problems can have long lasting on a horse's health can career. Whether you are breeding, showing or just hitting the trails, you need your horse to be ready when it is time. Investing in excellent veterinary care will help to ensure that the little problems do not turn into big problems. North Country Veterinary Services provides state-of-the-art medicine for today's performance horses. We have extensive experience with horses and the horse industry and understand your needs and concerns. We've learned from the top names in the business and are now making this expertise available in Northern Michigan. Whether you routine veterinary care or help in an emergency, we are standing ready to help!
