

Our Practice Philosophy

We view the opportunity to work with you as a privilege. It is as simple as that. As livestock producers ourselves, we know what your animals mean to you and we understand your concerns. We will always strive to provide you with the highest quality veterinary care available. We will function as an advisor to help you keep your cattle healthy and producing at their best. We will stand behind our work and stand beside you when you need us.

Dairy Services

Milk is money!

Dr. Chris Randall, DVM
231-588-6117

*It takes healthy
cows to make
milk...*

**Excellent veterinary care puts money in
your milk tank.**

It does not take a veterinarian to tell you that... But, are your cows getting the veterinary care that you need to be as productive as possible? As you well know, every penny you spend takes away from your tight profit margin. Not often do you have expenses that pay you back as quickly as investing in the health of your herd. Bringing North Country Veterinary Services into your team is a business decision that will pay off in many ways. Saving cows from early culling, improving pregnancy rates, preventing costly diseases and improving the general health of the herd translates directly to more product to sell. Give us a call, we will be happy to help!

Drop Shipping Program

NCVS has partnered with the nations leading veterinary supply companies and pharmacies to give you a one-stop shopping source for all of your supply, equipment and medication needs. The program is simple; ask for one of our catalogs, find what you need and either call the clinic to place an order or order from our website. After you check out, the products you order will be shipped directly to you. Prescription medications can also be ordered through this service and will come pre-labeled for your use. There is no easier way to get the supplies you require to keep your operation running!
