

Dear Valued Clients and Future Friends,

I am so pleased to be introducing myself to you. My name is Dr. Keith Ross and I am excited to be joining the team at the Animal Hospital of Clinton-Perryville.

Since 5 years of age in Mount Arlington, NJ, when I used to talk to my Old English Sheepdog Winston, I wanted to become a veterinarian. Many years, degrees, and Sheepdogs later, I graduated from the University of Minnesota College of Veterinary Medicine with my doctorate of veterinary medicine. I returned to New Jersey and worked at several exceptional veterinary hospitals where I had the opportunity to hone both my medical and surgical skills. Each day was spent with people like yourself, who deeply love and care for their pets - *and it was a dream come true!*

I knew that at some point, I wanted to own a veterinary hospital – and then I was fortunate to meet Dr. Felecia Niebojeski. As we prepared for this transition, it was immediately apparent that our passion for companion animal medicine was amazingly similar. We both believe strongly in the human-animal bond and the unique ways pets can touch our lives. We are both committed to providing the absolute best veterinary care to help our patients lead long and healthy lives. We both feel that the services we offer should continue to earn your trust each and every time you visit our hospital. With these basic shared values, we expect that the transition will be a smooth one.

For over 25 years, Dr. Felecia's combination of expertise, compassion and experience has blazed a path for AHCP. I realize that she has set a very high standard for me to live up to and I intend to do everything I can to ensure that you and your pets continue to receive the very best medicine and service at the Animal Hospital of Clinton-Perryville. Fortunately, she will be staying on as a part of the AHCP team and we are looking forward to working together to help your pets.

I look forward to getting to know you and your four-legged family members soon!

Sincerely,

Keith Ross, DVM
