

We Thank You for Your Support

It has been our pleasure serving the veterinary community over the past several years with our After Hours Veterinary Emergency Services on a referral basis. In 2011 we openly made available other medical services and would like to thank you for your support.

We have seven doctors on staff, one being on site until 2:00 am every day and on call all other times. Our intention is not to put ourselves forward as a specialty clinic, but with the years of experience providing these services, we do offer a cost effective alternative to the specialist/referral hospitals. When considering a referral please keep Thomasville Veterinary Hospital in mind.

The Process

- 🐾 Referring doctor or referral client contacts our hospital to set up the appointment.
- 🐾 Please provide all pertinent medical history including lab results and radiographs. You can either send them with your client or fax / email them to us directly.
- 🐾 Upon completion of procedure, copies of medical findings will be forwarded to the referring doctor.
- 🐾 Throughout the time your patient is in our care, our doctors will be in communication with the referring doctor and client, keeping you updated on your patient's status and recovery while at our practice.

The Standard of
Veterinary Excellence

Thomasville Veterinary Hospital has earned full accreditation from the American Animal Hospital Association (AAHA). Our facility meets AAHA's high standards for patient care, medical and surgical procedures, diagnostics, hospital management and record keeping. We are regularly inspected by the organization to assure that all criteria for accreditation are maintained.
