We will be vaccinating your pet while he/she is here as indicated above. We want to inform you there is a possibility your pet may experience lethargy and a mild fever for 24-48 hours. This is a typical response. Adverse reactions include severe vomiting or diarrhea, difficulty breathing, hives and or/swollen face. Reactions usually occur within 30-60 minutes from vaccination, but can occur up to 24 hours later. If your pet has a reaction, we will contact you immediately.

Please initial you have read the above paragraph _____

Outdoor Walks:

Outdoor walks are available at \$4 per walk up to twice daily. Flea and Tick preventative is **required** for outdoor walks within the last 30 days. Please mark decision for outdoor walks.

Once daily (AM PM) Twice daily None
 Please give K9 Advantix II at my expense Flea/Tick preventative already applied within 30 days.

NOTE:

*I understand my pet is exposed to other animals and may be at risk for potential infectious diseases. Additional charges may be added if your pet becomes ill and needs medical attention. Emergency care **will** be administered pending contact with you or your principal unless you decline any and all care. If you decide to decline all emergency care when admitting your pet for boarding, you **must** sign a form declining additional treatment.

*I hereby declare that I have authorized treatment involving hospitalization of the above described animal. I promise to be responsible and make payment, in full, for the boarding and veterinary services listed above.

I understand that my pet is not supervised overnight.
