Recommended services offered by Animal Clinic Leestown Road

*****The Doctors at Animal Clinic Leestown Road routinely utilize respiratory monitors during all anesthetic procedures.*****

•**Pain Medications**-at ACLR we strive to ensure a safe and comfortable stay for your pet at our facility. However, some surgical procedures are more painful than others, and some animals have a lower pain threshold. Please indicate if you would like to authorize post-surgical injectable pain medication. (Price may vary by weight and frequency of administration.)

YES(\$30-\$45)_____ NO _____

•**Pre-Surgical Blood Panel and CBC (Complete Blood Count)-THIS IS MANDATORY FOR ALL PATIENTS OVER THE AGE OF 6 YEARS.**

A pre-op tests 6 of your animal's blood chemistries including kidney, liver, and blood sugar functions. Blood work must be done on geriatric patients to ensure that their body can handle, as well as recover from the anesthesia they will be given during surgery. A CBC gives information on hydration status, anemia, infection, the bloods clotting ability, and the ability of the immune system to respond. A CBC can also detect bleeding or other unseen abnormalities.
