

Inappropriate Urination

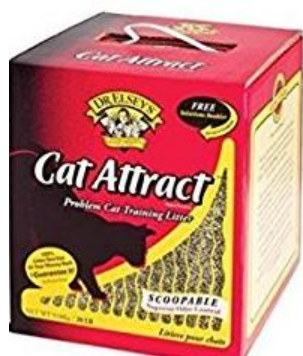

Feliway

Feliway is a synthetic copy of the feline facial pheromone, used by cats to mark their territory as safe & secure. Feliway is a natural substance and is odorless to humans.

By mimicking the cat's natural facial pheromones, Feliway creates a state of familiarity and security in the cat's local environment. If something stressful disturbs your cat's environment they may begin urine marking, scratching or may even stop eating and interacting. Used where the cat spends most of their time, Feliway will soon calm, reassure and greatly reduce or completely stop stress-related behavior.

Litter Attractant

Litter attractant is a feline behavior modification and training tool that provides a helpful solution for problem cats that won't use their litter box.

Cat Attract Litter is designed to make it easier to get cats of all ages trained or re-trained to use the litter box. Cat Attract Litter is a clay-based, scoopable, and clumping litter that has just the right texture, particle size and a unique herbal scent which is proven to attract cats. This product can be used in sifting/mechanical litter boxes & is 99% dust free.

Urine Eliminators

Specific urine pet stain removers have unique **enzymatic** eliminators that will break down urine odor compounds & minimize your pet's attraction to that spot. These enzymes remove all traces of pheromones on contact to break the re-soiling cycle. The advanced formulation of urine destroyers also works fast to remove yellow stains and stickiness left behind by other cleaners.
