**Instructions:**
Select the appropriate Distribution Option from sheet DS-31.1 and Insert here.

**Instructions:**
Include for VFD systems only, remove for FVNR & RVSS systems.

**Instructions:**
Include for RVSS systems only, remove for FVNR & VFD systems.

---

**Notes:**
1. All spares will be clearly labeled with the cable number & wire designation on modular mats. These spares will be connected to the terminal panels in the pump control panel.
2. All conductors are to be trimmed and heat shrink should be used to secure the spare conductors in the cable. For colors that follow: black, blue, brown, yellow, brown, red with a black spiral stripe.
3. All spare conductors are to be made long enough to reach any point in the panel. Spare conductors should be trimmed and heat shrink should be used to secure the spare conductors in the cable.
4. See sheet DS-33.1 for panel to panel connection & cable details based on supplied voltage.
5. See note #10 on sheet DS-0.1
