RE: CIRCCVINT/2018/007011

Vasodilators and Radial Artery Occlusion: A Concept to Reduce Radial Artery Occlusion?

Dear Dr. Gilchrist,

We are pleased to inform you that your editorial is acceptable for publication in *Circulation: Cardiovascular Interventions*. We plan to publish your paper in the July issue of the journal.

We will proceed with the processing of your manuscript for publication. During the copyediting phase, there may be some changes in phrasing, but there will be no alteration of scientific content. When you receive your galley proofs, please read, correct, and return them immediately to avoid delay in publication. Please note that it is your responsibility to make yourself available to review the proofs whenever they arrive, and if you are not available, publication of your manuscript will be delayed.

We are very pleased to have the opportunity to publish this interesting work. Thank you very much.
