

“Re-Activ™-ate” for Improved Wellness

Today's world is an unhealthy one. Obesity, cardiovascular disease, diabetes and related conditions are rising, despite continued warnings from health officials. Low energy is an increasingly common complaint, and hectic schedules contribute to the vicious cycle.

The truth is that it takes a lot of effort to be healthy, both in terms of diet and physical activity. Fortunately Xoçai® has created Activ™, a revolutionary cacao-based drink that is a nutrient powerhouse and geared for those looking to “re-activate” their lifestyle.

Made with the healthy, premium-grade chocolate found only with Xoçai, Activ is the original high-antioxidant, flavonoids-rich supplement beverage. Xoçai Activ also contains açai berry and blueberries, both known for their impressive nutrient profiles, antioxidant protection and wide-ranging health benefits.

Healthy Chocolate Turns into Unhealthy “Candy”

The Olmec civilization of Mesoamerica began using cacao over 3,500 years ago. Many historical texts praise the stamina- and energy-building properties of *xocolatl*, the original chocolate-based beverage. And after the Spanish conquest of the Aztecs, chocolate eventually became a preferred food of the European elite.

As chocolate became more available, however, undesirable ingredients such as refined sugar, waxes, fillers and added fats became more common. And manufacturers increasingly utilized processing methods that neutralized the healthful antioxidant content of their chocolate products. In short, chocolate had turned from a health-promoting food to a health-threatening candy.

Proper Processing: Xoçai Preserves Cacao’s Natural Goodness

Standard processing methods used to create commercial chocolates eliminate most of cacao’s health-promoting properties. Fermentation, roasting, and high sustained temperatures markedly decrease the amount of flavanols in cacao.

Xoçai Activ, on the other hand, uses Xoçai’s proprietary cold-processed chocolate. How does it differ from standard chocolate?

- Not fermented
- Sun-dried (not roasted)
- Cold-processed
- Retains natural cocoa butter
- Contains no waxes, milk solids, oils or fillers

What's In Xoçai® Activ™?

Cacao

Nutrient Highlights

- amino acids
- epicatechins
- anthocyanins/procyanidins
- B vitamins
- magnesium
- zinc

Potential Benefits

- promotes healthy blood sugar levels
- supports cardiovascular health
- promotes proper inflammation response
- provides antioxidant protection
- protects cellular function
- promotes nitric oxide (NO) activity
- maintains mental/cognitive function

Açaí

Nutrient Highlights

- polyphenols
- anthocyanins
- essential fatty acids
- amino acids
- vitamin E

Potential Benefits

- boosts energy levels
- supports healthy immune function
- promotes cardiovascular health
- maintains optimal cellular health

Blueberry

Nutrient Highlights

- anthocyanins
- vitamins
- minerals

Potential Benefits

- supports healthy cardiovascular function
- maintains cognitive health
- provides antioxidant protection
- supports healthy inflammatory response

ICT Labs: A Seal of Superior Quality

The ORAC_m scores of each Xoçai® product come from ICT Labs, an independent, third-party analytical laboratory that provides analytical services for some of the world's finest research institutions, corporations, and public organizations.

"The ICT Labs seal assures consumers they are getting one of nature's premiere antioxidant-rich foods."
