

ABSTRAK

Penelitian ini bermaksud untuk menyelidiki dan menganalisis bagaimana hubungan EPS, ROA, Dividen dan Inflasi atas harga saham kepada perusahaan sektor keuangan tahun 2015 – 2019. Metode pengujian ini memakai pendekatan kuantitatif, dengan jenis pengujian deskriptif kuantitatif. Populasi penelitian merupakan perusahaan sektor keuangan di BEI sebanyak 91 perusahaan dengan memakai metode *purposive sampling*, diperoleh jumlah sampel dalam pengujian sebanyak 120 sampel dari 24 perusahaan yang diteliti. Regresi linier berganda merupakan metode dalam pengujian ini. Berdasarkan hasil pengujian dapat disimpulkan maka menurut simultan EPS, ROA, Dividen (DPS) dan Inflasi berpengaruh simultan dan positif pada Harga Saham diperoleh $F_{hitung} 138,822 > F_{tabel} 2,451$. Sedangkan menurut parsial, EPS berpengaruh positif pada Harga Saham diperoleh hasil $T_{hitung} 7,215 > T_{tabel} 1,981$ serta nilai *sig.* $0,000 < 0,05$ dibandingkan ROA berpengaruh negatif pada Harga Saham diperoleh hasil $T_{hitung} -4,053 < T_{tabel} -1,981$ serta nilai *sig.* $0,000 < 0,05$. Dividen diperoleh hasil $T_{hitung} 1,621 < T_{tabel} 1,981$ serta nilai *sig.* $0,108 > 0,05$ untuk inflasi diperoleh hasil $T_{hitung} -0,597 > T_{tabel} -1,981$ serta nilai *sig.* $0,552 > 0,05$ sehingga keduanya tidak berpengaruh signifikan pada Harga Saham.

Kata Kunci : EPS, ROA, Dividen dan Inflasi

ABSTRACT

*This study intends to explore and analyze how the relevance between EPS, ROA, dividends and inflation on stock prices for financial sector companies in 2015 - 2019. This test method uses a quantitative approach, with quantitative descriptive type of testing. The research population is the financial sector companies on the BEI as many as 91 companies using the purposive sampling method, the number of samples in the test is 120 samples from the 24 companies studied. Multiple linear regression is a method in this test. Based on the test results it can be concluded that according to simultaneous EPS, ROA, Dividend (DPS) and inflation have a simultaneous and positive effect on the stock price, it is obtained $F_{count} 138,822 > F_{table} 2,451$. Meanwhile, according to partial, EPS has a positive effect on stock prices, the results obtained are $T_{count} 7,215 > T_{table} 1,981$ and *sig.* $0,000 < 0,05$ compared to ROA has a negative effect on stock prices, the results obtained by $T_{count} -4.053 < T_{table} -1,981$ and *sig.* $0,000 < 0,05$. Dividend results obtained $T_{count} 1,621 < T_{table} 1,981$ and the *sig.* value $0,108 > 0,05$ for inflation, the results obtained were $T_{count} -0,597 > T_{table} -1,981$ and the *sig.* value $0,552 > 0,05$ so that both of them do not have a significant effect on the stock price.*

Keywords : EPS, ROA, Dividends and Inflation
